| | Answer any 3 out of the given 5 questions in 20 – 30 words each (2 x 3 = 6 marks) | Marks |
|-------|--|-------|
| Q.12. | A juice company realized that selling only basic fruit juices at low prices was not enough to attract health-conscious consumers. It introduced a new range of cold-pressed, organic, and vitamin-enriched juices with unique flavors. Customers were willing to pay a higher price because of the quality and health benefits, and the company's sales and profits grew. From the above case identify and explain the marketing philosophy adopted by the juice company. | 2 |
| Q.13. | Explain any two reasons why market segmentation is important for a business. | 2 |
| Q.14. | A car manufacturer wants to promote its new electric car. Sales executives at dealerships personally explain features and take customers for test drives. Meanwhile, the company issues a press release about its environmental initiatives, which appears in major newspapers. Identify the elements of promotion undertaken in the above case. | 2 |
| Q.15. | A company cannot rely only on a good product to succeed. Explain why the marketing mix is essential in ensuring successful marketing. | 2 |
| Q.16. | Rhea bought a new smartphone after comparing several models online and in stores. Two days after the purchase, she started wondering if she made the right choice because her friends told her she could have gotten a better camera in another brand. She is now reading more reviews to reassure herself, and the company has sent her follow-up messages highlighting the phone's key features and user benefits. From the above situation, explain the possible post-purchase outcome and how the marketer can help reduce Rhea's anxiety. | 2 |

| | Answer any 2 out of the given 3 questions in 30– 50 words each (3 x 2 = 6 marks) | Marks |
|-------|---|-------|
| Q.17. | A start-up wants to launch a line of organic food products. However, banks are hesitant to approve a loan, a popular magazine is questioning the product ingredients, and the local community is demanding more information on the company's waste disposal methods. Using this situation, identify and explain the different types of publics involved. | 3 |
| Q.18. | After identifying relevant set of competitive products serving a target market, mention the next three immediate steps to be followed by an organization undertaking positioning process. | 3 |
| Q.19. | Organizations can employ distribution alternatives on the basis of their products. In light of the above statement, explain the distribution alternatives. | 3 |

| | Answer any 3 out of the given 5 questions in 50– 80 words each (4 x 3 = 12 marks) | Marks |
|-------|---|-------|
| Q.20. | A company plans to introduce a new sports drink but is unsure how to reach the right audience and communicate its benefits effectively. With the help of your understanding of marketing, explain why marketing is important for both the company and its customers in this case. | 4 |
| Q.21. | Explain in detail any two macro environmental factors/ forces which affect organization's marketing decisions. | 4 |
| Q.22. | Identify and explain the types of targeting mentioned in the cases given below: a. Colgate sells the same basic toothpaste formula across the country, promoting it with a single message about strong teeth and fresh breath. The | 4 |

| | | |
|-------|--|---|
| | <p>product, packaging, and advertising remain largely the same for all age groups, income levels, and regions. By offering one standard product to everyone, Colgate is able to reach a huge number of consumers and reduce production costs.</p> <p>b. A company called Pure Paws produces premium, grain-free dog food made only for small-breed dogs with sensitive stomachs. Instead of selling to all dog owners, the brand focuses only on this very specific group that looks for specialized nutrition. Larger pet-food brands usually target broader categories, so Pure Paws faces less direct competition and can offer customized ingredients that meet the exact needs of this narrow group of buyers.</p> | |
| Q.23. | <p>A sportswear company called Stride Max launches a new collection of running shoes. To quickly attract customers in a market already dominated by big brands, Stride Max decides to sell one of its basic models at a much lower price than the competitors, hoping that more runners will try the brand and spread the word. At the same time, Stride Max introduces a high-tech premium shoe with advanced cushioning and a stylish design. For this model, the company sets a very high price because it wants to target athletes who like exclusive, top-quality products. Stride Max also notices that different customer groups have different purchasing power. So, it offers discounted prices to students and sports clubs, while selling the same shoes at higher prices in high-end malls and sports stores where buyers are willing to pay more. Transportation costs and competition vary across regions. In areas close to the main factory, Stride Max sells the shoes at a lower rate due to low distribution costs. In distant cities, the prices are slightly higher. In one far-off region where many competitors already exist, Stride Max again offers the shoes at a very low price to attract customers.</p> <p>Identify and explain the major pricing strategies undertaken by Stride Max in the case given above.</p> | 4 |
| Q.24. | <p>A company is planning to design its production and marketing strategies for a new product. Why is it important for the company to study consumer behaviour? Give any four reasons.</p> | 4 |
