

# Indian School Wadi Kabir

Class: XI

ISWK SHARING KNOWLEDGE  
(Monthly Plan - April 2026)

SUBJECTS	Week - 1	Week - 2	Week - 3	Week - 4	Week - 5	Learning Outcomes
<b>ENGLISH</b>		BRIDGE COURSE - Worksheets for Comprehension, Grammar and Vocabulary	Hornbill: The Photograph (poem) Portrait of a lady (prose)	Hornbill: The Photograph (poem) Portrait of a lady (prose)	WRITING: Classified Advertisements GRAMMAR: Tenses Comprehension- unseen passage	RECALL of Vocabulary, Grammar and Comprehension -to perceive meaning and organisation of the text -using appropriate Writing formats and fluency, inference, analysis and creativity -Ability for deeper understanding of the text and the real world around them -Draft advertisements -Use grammatical structures
<b>MATHEMATICS</b>		Bridge Course  Work Sheet based on Basics of mathematics learned till class 10	1 - SETS  Understand Sets and their representations, Empty set, Finite & Infinite sets. Subsets. Subsets of a set of real	1 - SETS  Venn diagrams. Union and Intersection of sets. Difference of sets. Complement of a set. Properties of complement sets. Practical problems on	2- RELATIONS AND FUNCTIONS Cartesian product of sets. Number of elements in the Cartesian product of two finite sets. Cartesian product of the set of all reals	Children understands Sets and their representations, Empty set, Finite & Infinite sets. Recognize Subsets. Subsets of a set of real numbers especially intervals (with notations),

			numbers especially intervals Universal set.	union and intersection of sets.  Apply in real life situations	with itself (upto $R \times R \times R$ ). Definition of relation, pictorial diagrams, domain, co-domain and range of a relation.	Universal set. and their various properties and concepts
<b>PHYSICS</b>		Bridge course	chapter-1 Rest and Motion. Equations of motion, Graphs, Scalar and vector quantities, physical quantities, units, conversions	Newton's three laws of motion, Inertia, momentum, Types of work, energy, power, Universal law of gravitation. Acceleration due to gravity Chapter-2: Motion in a Straight Line: Frame of reference, Motion in a straight line, Elementary concepts of differentiation and integration for describing motion, uniform and non-uniform motion instantaneous	velocity, uniformly accelerated motion, velocity - time and position-time graphs. Relations for uniformly accelerated motion (graphical treatment). Chapter-3: Motion in a Plane: Scalar and vector quantities; position and displacement vectors, general vectors and their notations;	Students will be able to demonstrate a clear understanding of the fundamental concepts of Physics and its applications  Learners will be able to recall the different types of motion  They will be able to distinguish between 1 dimension and 2 dimension motion
<b>CHEMISTRY</b>		Bridge course	Chapter 1-Some basic concepts of Chemistry  Introduction to Chemistry and its	Stoichiometry basics. Stoichiometric Calculations	Chapter - 2 Structure of atom, Dual Nature of Matter and Light, de Broglie's Relationship	Students will be able to demonstrate a clear understanding of the fundamental concepts of Chemistry,

			Importance.Laws of chemical combination Mole concept, Empirical and Molecular Formulas,			including the significance of chemical laws, the application of the mole concept in calculations, and the ability to describe atomic structure as per Bohr's model. They will engage in problem-solving and critical thinking through practical applications and assessments.
<b>BIOLOGY</b>		<b>BRIDGE COURSE</b>	Chapter-8 Cell: The Unit of Life, Cell theory, Organelles of prokaryotic cell and eukaryotic cell	Chapter 10-Cell cycle and Cell Division Different Phases and the process in different phases of cell division. Introduction to various stages in mitosis	Chapter 10Cell cycle and Cell Division,Meiosis and mitosis in cells. Meiosis 1 and 2.	Learners will be able to recall the different organelles. They will be able to distinguish between mitosis and meiosis. Define the <b>cell cycle</b> as the sequence of events leading to cell growth and division.  Explain the importance of the cell cycle in <b>growth, repair, and reproduction.</b>

<b>INFORMATICS PRACTICES</b>		BRIDGE COURSE	Introduction to computer and computing, Evolution of computing devices, Components of a computer system	Computer memory- primary memory & secondary memory, Computer Software- system and application software, generic and specific purpose software	Basics of Python Programming - Variables - Data types - Operators, Expressions	-Recall of python basics -to understand the basic structure and components of computer system -to understand about computer memory and software -to get a deeper understanding of python variables and data types
<b>COMPUTER SCIENCE</b>		BRIDGE COURSE	Computer Systems and Organization – Description of Computer System - Mobile System – Types of Software  Compiler – Interpreter - Memory Units - Number System	Boolean Logic – Basic Concepts of Flowchart - Computational Thinking and Programming – Features of Python	Executing a simple “hello world” program, execution modes: interactive mode and script mode, Python character set, Python tokens( keyword, identifier, literal, operator, punctuator), variables, concept of l-value and r-value	-Each student knows the basics of the computer system and types of softwares used. -Students will know the basics of python programs using interactive and script mode. -They will get an idea about variables, tokens etc.

<p style="text-align: center;"><b>ACCOUNTANCY</b></p>	<p style="text-align: center;">-</p>	<p><b>Introduction to Accounting.</b> Accounting- concept, meaning, as a source of information. Objectives, advantages and limitations. Types of accounting information. Users of accounting information and their needs. Qualitative Characteristics of Accounting Information. Role of Accounting in Business.</p>	<p>Introduction to Accounting, Basic Accounting Terms. "Accounting terminologies- Entity, Business Transaction, Capital, Drawings. Liabilities (Non Current and Current). Assets (Non Current, Current); Expenditure (Capital and Revenue), ""Accounting terminologies-Expense, Revenue, Income, Profit, Gain, Loss, Purchase, Sales, Goods, Stock, Debtor, Creditor, Voucher, Discount (Trade discount and Cash Discount)</p>	<p>Fundamental accounting assumptions: GAAP: Concept "Basic Accounting Concepts: Business Entity, Money Measurement, Going Concern," "Accounting Period, Cost Concept, Dual Aspect, Revenue Recognition, Matching, Full Disclosure, Conservatism, Materiality and Objectivity. Basis of Accounting. Systems of Accounting"</p>	<p>Accounting Standards: Applicability of Accounting Standards (AS) and Indian Accounting Standards (IndAS) "Source Document Voucher and Transactions: Source documents and Vouchers, Preparation of Vouchers" Recording of transactions: Accounting Equations</p>	<ul style="list-style-type: none"> <li>- Describe the meaning and significance of accounting.</li> <li>- Explain how accounting functions as a source of information for decision-making.</li> <li>- Describe the objectives and limitations of accounting.</li> <li>- Understanding of qualitative characteristics and way of accounting system: Double entry &amp; single entry.</li> <li>- Understand and explain the various accounting terms and differentiate between related terms.</li> </ul>
<p><b>BUSINESS STUDIES</b></p>		<p>Nature and Purpose of Business(Business Trade and Commerce)</p>	<p>Objectives, Role of Profit, IndustryCommerce</p>	<p>Forms of Business Organisation</p>	<p>HUF, and Cooperative Societies</p>	<p>To acquaint the History of Trade and Commerce in India. Meaning of business with</p>

		Business Concept, types and differences	and types, Trade and Auxiliaries toTrade			<p>special reference to economic and noneconomic activities.</p> <ul style="list-style-type: none"> <li>•The characteristics of businessUnderstand the concept of business, profession and employment.</li> <li>• Differentiate between business, profession and employment. Identify and explain the concept, merits and limitations of a Partnership firm. Understand the types of partnership on the basis of duration and on the basis of liability.</li> <li>• State the need for registration of a partnership firm. The types of partners –active, sleeping, secret, nominal and partner by estoppel. The concept of Hindu Undivided Family Business. Identify and explain the concept, merits and limitations of Cooperative Societies.</li> <li>• The concept of consumers, producers,</li> </ul>
--	--	---	--	--	--	--

						marketing, farmers, credit and housing co-operatives.Writing Notes.
--	--	--	--	--	--	--

**ECONOMICS**

**Introduction to statistics:**  
Meaning, scope, functions and importance of statistics in economics.

**Collection of data :**  
Meaning, sources of data

Sampling and Non-sampling errors, methods of collecting data  
Methods of Sampling

Collection of data (Contd.)  
Census of India and NSSO  
**Organization of Data:**  
Meaning, Types of variables,  
How to prepare a Frequency distribution.

Frequency Distribution - with inclusive and exclusive class interval  
Numerical Practice

Understanding the meaning , scope of the subject.  
a. Will know what the subject of economics is about.  
b. Understand how economics is linked with economic activities in consumption, production, and distribution.  
c. Understand how knowledge of statistics helps in describing the activities of the economy.  
  
Define the meaning of the collection of data.  
Analyse the purpose of data collection.  
Distinguish between primary and secondary sources.

						<p>Explain and compare the various methods of sampling.</p> <p>Explain the functions of Census of India and NSSO.</p> <p>Organise raw data for any further analysis. Construct a table with all required information for easy comparison &amp; analysis.</p>
<b>ENTREPRENEURSHIP</b>		<p>Chp 1: Entrepreneurship - Concept &amp; Functions</p> <p>Understand the concept of Entrepreneurship Explain the functions of an Entrepreneur</p>	<p>Appreciate the need for entrepreneurship for the nation. Myths of entrepreneurship Advantages and Limitations of entrepreneurship Discuss the steps in the process of Entrepreneurship Writing Notes</p>	<p>Chp 2: An Entrepreneur</p> <p>Types of Entrepreneurs</p>	<p>Competencies of an Entrepreneur Ethical Entrepreneurship Understanding the core values of Entrepreneur</p>	<p>Students will be able to: Define the concept of entrepreneurship in simple terms. Explain the role and importance of an entrepreneur in business and society. Identify and describe the key functions performed by an entrepreneur. Appreciate the need for entrepreneurship in</p>

						<p>national development (economic growth, employment generation, innovation).  Distinguish between myths and realities of entrepreneurship.  Analyze the advantages and limitations of entrepreneurship.  Outline and explain the steps involved in the entrepreneurial process.  Develop structured notes summarizing key concepts of entrepreneurship.</p>
<b>MARKETING</b>	<p>EMPLOYABILITY SKILLS –  CHP 1:  COMMUNICATION SKILLS</p> <ol style="list-style-type: none"> <li>1. Introduction to communication</li> <li>2. Importance of communication</li> <li>3. Elements of communication</li> <li>4. Perspectives/ Barriers in communication</li> <li>Factors Affecting Perspectives in communication</li> </ol>	<p>Non - verbal Communication - types  Visual Communication  6. Communication Styles  7. Refusal Skills</p>	<p>SUBJECT SPECIFIC SKILLS – UNIT 1  INTRODUCTION TO MARKETING</p> <ol style="list-style-type: none"> <li>1. Introduction to Concept and Definition Of Marketing</li> <li>2. Marketing Concepts</li> <li>3. Objectives of Marketing</li> <li>4. Scope and Importance of Marketing</li> </ol>	<p>Importance to Customers  Importance to Society  5. Marketing Philosophy  6. Marketing vs Selling</p>	<ol style="list-style-type: none"> <li>1. Define communication</li> <li>2. Illustrate the effectiveness of communication</li> <li>3. Analyze how different elements interact and influence communication outcomes</li> </ol> <ol style="list-style-type: none"> <li>1. Define marketing</li> <li>2. Explain various marketing concepts</li> <li>3. Identify and explain the primary objectives of marketing</li> </ol>	

				Importance to the Marketers		4. Describe the scope of marketing activities 5. Understand different marketing philosophies 6. Differentiate between marketing and selling by explaining their distinct focuses
<b>ENGINEERING GRAPHICS</b>		Bridge course -Introduction to the new subject - Preliminary Contents of Engg.Graphics like Drawing instruments,size and shape	Layout of drawing sheet and title block construction with proper measurements.	Unit 1 : Rectilinear Figures - Definitions, Bisection and construction of angle.	Types of lines,triangles	Recalling the concepts of bisection and construction of triangles from earlier classes
<b>PSYCHOLOGY</b>		Unit 1: General Introduction and Overview of Subject and Gr.11 Syllabus. Chp 1:- What is Psychology? Introduction  Unit 1: What is Psychology? Psychology as a Discipline, Natural Science and Social	Unit 1: What is Psychology? Evolution of Psychology Development of Psychology in India  Unit 1: What is Psychology? Branches of Psychology	Branches of Psychology  Branches of Psychology (continued)		Learners will be able to;- *Develop a basic idea about the nature of Psychology *Understand various aspects of the Discipline *Enlist and describe various branches of Psychology * Relate to Daily relevance of the subject

		Science Understanding Mind and Behaviour				
<b>PHYSICAL EDUCATION</b>		Changing Trends and Careers in Physical Education Concept, Aims & Objectives of Physical Education Development of Physical Education in India – Post Independence	Changing Trends in Sports- playing surface, wearable gear and sports equipment, technological advancements	Career options in Physical Education	Khelo-India Program and Fit – India Program	Students will be able to: <ul style="list-style-type: none"> <li>•Recognize the concept, aim, and objectives of Physical Education.</li> <li>•Identify the Post-independence development in Physical Education.</li> <li>•Categorize Changing Trends in Sports- playing surface, wearable gear, sports equipment, technological</li> <li>•Explore different career options in the field of Physical Education.</li> <li>•Make out the development of Khelo India and Fit India Program.</li> </ul>
<b>PAT</b>		Identify physical and emotional needs of children	Identify factors influencing physical activities	Create different levels of physical activity planning for children	- Prepare lesson plans for physical activities	<i>Recognize children's physical, mental, and social needs to support holistic growth and well-being effectively.</i>

<p><b>SOCIOLOGY</b></p>		<p>BRIDGE COURSE:          -Introduction to Sociology &amp; Relevance of the subject in the present times          -Basics of Research Methodology &amp; Project Details and Internal Assessments for the new Academic review          - Comprehension skills for Sociology</p>	<p>Chapter 1: Sociology &amp; Society          - Subject matter, concepts &amp; Pluralistic perspectives</p>	<p>Chapter 1:          Distinguishing Common sense from Sociology, Material and Intellectual factors that led to the birth of Sociology</p>	<p>Chapter 1: Scope of Sociology and relation to other Social Sciences</p>	<p><b>Understand key concepts</b>          – Define Sociology and Society, and recognize contributions of thinkers like Auguste Comte and Emile Durkheim.  <b>Explain sociological perspective</b> – Distinguish between common-sense knowledge and sociological thinking, and understand the role of events like the Industrial Revolution.  <b>Apply concepts to real life</b> – Use sociological imagination to interpret everyday social situations and issues.  <b>Develop skills and values</b>          – Build critical thinking, research skills, and sensitivity towards diversity and social issues.</p>
-------------------------	--	---	--	---	--	---

**Class: XI**

# Indian School Wadi Kabir

**ISWK SHARING KNOWLEDGE  
(Monthly Plan - May 2026)**

SUBJECTS	Week - 1	Week - 2	Week - 3	Week - 4	Week - 5	Learning Outcomes
<b>ENGLISH</b>	GRAMMAR: Sentence reordering	Snapshots: The Summer of the Beautiful White Horse (Prose)	Snapshots: The Summer of the Beautiful White Horse (Prose)	WRITING: Long Writing task: Speech Writing	<b>SUMMER BREAK</b>	Express opinion facts, arguments in the form of writing. Comprehend the difference between literal and figurative devices. Use grammatical structures accurately and appropriately.
<b>MATHEMATICS</b>	2- RELATIONS AND FUNCTIONS  Recognize Function as a special kind of relation Pictorial representation of a function, domain, co-domain & range of function. Real valued functions, domain and range of the functions with their graphs.	3-TRIGONOMETRY  Positive and negative angles. Measuring angles in radians and in degrees and conversion from one measure to another. Definition of trigonometric functions with the help of unit circle.	3-TRIGONOMETRY  + Revision For UT1 Signs of trigonometric functions.	Unit Test Revision  Unit Test for Class XI	<b>SUMMER BREAK</b>	Children recognize Function as a special kind of relation from one set to another. Pictorial representation of a function, domain, co-domain & range of function. Real valued functions, domain and range of the functions with their graphs.

<p><b>PHYSICS</b></p>	<p>Equality of vectors, multiplication of vectors by a real number; addition and subtraction of vectors, Unit vector; resolution of a vector in a plane, rectangular components</p>	<p>Scalar and Vector product of vectors. Motion in a plane, cases of uniform velocity and</p>	<p>uniform acceleration,project ile motion, uniform circular motion. Worksheet and exercise questions  worksheet and exercise questions</p>	<p>Chapter–1: Units and Measurements: Need for measurement: Units of measurement; systems of units; SI units, fundamental and derived units.  Dimensions of physical quantities, dimensional analysis and its applications.</p>	<p><b>SUMMER BREAK</b></p>	<p>Students will understand the vector multiplication and resolving of vectors  Students will be able to: Define and explain the projectile motion and the circular motion ,centripetal acceleration ,centripetal force etc</p>
-----------------------	---	---	---	---	----------------------------	---

<p style="text-align: center;"><b>CHEMISTRY</b></p>	<p>Heisenberg Uncertainty Principle, Concept of Orbitals</p>	<p>Quantum Numbers, Shapes of Orbitals</p>	<p>Rules for Filling Electrons in Orbitals, Electronic Configuration and Stability</p>	<p>Chapter -3-Classification of Elements and Periodicity in Properties, Modern Periodic Law and the Present Form of the Periodic Table</p>	<p>SUMMER BREAK</p>	<p>Students will be able to:</p> <ul style="list-style-type: none"> <li>•Describe the structure of the atom and the discovery of subatomic particles.</li> <li>•Explain the dual nature of matter and light.</li> <li>•Apply de Broglie's relationship and Heisenberg's uncertainty principle.</li> <li>•Understand the concept of orbitals and quantum numbers.</li> <li>•Determine the shapes of s, p, and d orbitals.</li> <li>•Apply rules for filling electrons in orbitals.</li> <li>•Write electronic configurations and assess the stability of half-filled and completely filled orbitals.</li> </ul>
---	--	--	--	--	---------------------	--

<b>BIOLOGY</b>	Chapter-9 Biomolecules, Compositions of different lipids, proteins.	Chapter-9 Biomolecules, Formation of Enzyme substrate complex and product formation.	CH-14 : Breathing apparatus of Gases , respiratory system of different animals, human respiratory system, mechanism of double circulation and its disorders.	Chapter 15: Body Fluids and Circulation Composition of blood, blood groups, coagulation of blood; composition of lymph and its function.	<b>SUMMER BREAK</b>	Students will understand the various compositions of different lipids, proteins. Explain the formation of Enzyme substrate complex and product formation.
<b>INFORMATICS PRACTICES</b>	Conditional statements – Introduction, if, if-else, if-elif-else	if else , if elif and nested if	programs with if else	revision on Programs with if else statements		- Use if statements to make decisions in simple Python programs and Apply if-else statements to handle two possible conditions. -Determine the output of programs containing conditional statements. -Apply if-else statements to handle two possible conditions and use while loops for condition-based repetition.
<b>COMPUTER SCIENCE</b>	Comments – Notion of a Variable - Data Types and Operators	Expressions, statement, type conversion, and input/output:	Conditional statements- if else, if - elif- else.	Introduction to range function. Iterative statements		-Students will know how python works and modes of it.

	Operator Types – Python Program creation – IDLE mode and Script mode	precedence of operators, expression, evaluation of an expression, type-conversion .				<ul style="list-style-type: none"> <li>-Introducing the decision making statements .</li> <li>-Concept of selection statement to be explained Knowing the different types of if statements.</li> <li>-Understanding the working of each type with the help of programs</li> </ul>
<b>ACCOUNTANCY</b>	Recording of transactions: Accounting Equations.	<b>Rules of debit and credit. , Journal</b>	Journal- Passing entries- Compound entries	Ledger-Meaning, Uses. Ledger posting, balancing. Trial Balance		<ul style="list-style-type: none"> <li>- Apply the rules of debit and credit in journalising and posting in a ledger.</li> <li>-Apply the rules of posting entries in books of accounts.</li> <li>-Describe the process of posting transactions from journal to ledger.</li> <li>-Examine various ledger accounts and the treatment of assets and liabilities in different ledger accounts.</li> <li>- Apply the rules of journalising and posting for the preparation of T/B</li> </ul>

<p><b>BUSINESS STUDIES</b></p>	<p>Formation of a company - Stages in the Formation of a Company</p>	<p>Stages in the formation of company and documents</p>	<p>Formation of company - stages, important documents to be used in formation of a company</p>	<p>Formation of company - stages, important documents to be used in formation of a company</p>	<p>Choice of form of business organization</p>	<p>Highlight the stages in the formation of a company.</p> <ul style="list-style-type: none"> <li>• Discuss the important documents used in the various stages in the formation of a company. Highlight the stages in the formation of a company.</li> <li>• Discuss the important documents used in the various stages in the formation of a company. Choice of form of business organization</li> <li>• Distinguish between the various forms of business organizations.</li> <li>• Factors that influence the choice of a suitable form of business organization.</li> </ul>
<p><b>ECONOMICS</b></p>	<p><b>Introduction to Microeconomics:</b> Meaning of micro economics and macroeconomics Positive and Normative economics</p>	<p><b>Consumers Equilibrium &amp; Demand:</b> Utility - Meaning, Total Utility, Marginal utility, Numericals .</p>	<p>Consumers Equilibrium &amp; Demand: (Contd) Budget line Monotonic preference, indiff map</p>	<p>Consumers Equilibrium &amp; Demand: (Contd)</p> <p><b>Demand:</b> Market demand, determinants of demand, demand schedule, curve and slope. Movement</p>	<p>Consumers Equilibrium &amp; Demand: (Contd) Relationship between income and demand: Distinction between normal good and inferior</p>	<p>Distinguish between the concepts; Micro &amp; Macro Economics; Positive and Normative Economics. Analyse the central problems of any economy and</p>

	<p>What is an economy?          central problems of an economy.          Concepts of Production          Possibility Frontier and          Opportunity Cost.</p>	<p>Law of diminishing marginal utility,          Conditions of consumer's equilibrium using marginal utility analysis          Cardinal utility analysis:          One commodity case          Two commodity case</p>	<p>Condition of consumer's equilibrium with the help of indifference curve analysis.</p>	<p>along and shifts in the demand curve</p>	<p>good. Price Elasticity and its degree.</p>	<p>discuss the central problems like...          what to produce, how to produce and for whom to produce.          Understand the shift n swings of PPC          State the meaning of utility; Solve numerical related to TU &amp; MU Explain the Law of DMU.          Analyse the conditions of equilibrium using marginal utility.          Differentiate between cases.          Compare and analyze the techniques of the indifference curve, its importance, and its role in the life of the consumers.          Explain the conditions of equilibrium and</p>
--	--	---	--	---	---	---

						<p>represent it graphically. Analyse the consumer preference for goods and its impact, budget line &amp; set, and indifference curve and represent them graphically. Analyse the relationship of price and quantity demanded. Derive the market demand curve from the individual demand curve. Represent the shift and movement graphically. Distinguish between normal good and inferior goods. State the price elasticity of demand and Explain the various degrees of elasticity.</p>
--	--	--	--	--	--	--

<b>ENTREPRENEURSHIP</b>	<p>Chp 2: An Entrepreneur</p> <p>Understand the concept of Attitude</p> <p>Concept of Motivation</p> <ul style="list-style-type: none"> <li>- Maslow's Theory</li> <li>- McClelland's Theory of Needs</li> </ul>	<p>Concept of Intrapreneurship</p> <ul style="list-style-type: none"> <li>- Meaning</li> <li>Importance</li> <li>Consequences</li> <li>Writing Notes</li> </ul>	<p>Chp 2: Writing Notes</p> <p>Chp 3: An Entrepreneurial Journey</p> <p>Idea Generation</p> <p>Importance of Evaluating ideas</p>	<p>Concept of Feasibility Study</p> <p>Elements of business plan</p>	VACATION	<p>Students will be able to:</p> <ul style="list-style-type: none"> <li>Define and explain the concept of attitude and its role in shaping entrepreneurial behavior.</li> <li>Describe the concept of motivation and its importance in driving entrepreneurial actions.</li> <li>Explain Maslow's Theory of Needs and relate it to entrepreneurial motivation.</li> <li>Explain McClelland's Theory of Needs (achievement, affiliation, power) and its relevance to entrepreneurs.</li> <li>Define the concept of intrapreneurship.</li> <li>Explain the importance of intrapreneurship within organizations.</li> <li>Analyze the consequences of intrapreneurship for individuals and organizations.</li> <li>Develop structured and organized notes on</li> </ul>

						attitude, motivation, and intrapreneurship
<b>MARKETING</b>	Notes and Worksheet Discussions	<p>SUBJECT SPECIFIC SKILLS: CHP 2 MARKETING ENVIRONMENT</p> <p>1. Meaning of Marketing Environment</p> <p>2. Micro Environment Factors</p> <p>3. Macro Environment Factors</p>	<p>4. Concept of Enviromental Scanning</p> <p>5. Importance of Environmental Scanning</p>	<p>Worksheet Discussions</p> <p>EMPLOYABILITY SKILLS - SELF MANAGEMENT SKILLS</p> <p>1. Strength and Weakness Analysis</p> <p>2. Grooming</p> <p>3. Personal hygiene</p> <p>4. Team work</p> <p>5. Networking</p> <p>6. Self motivation</p>	SUMMER BREAK	<p>1. Define the concept of marketing environment</p> <p>2. Identify and analyze micro and macro environment factors</p> <p>3. Explain the concept of environmental scanning and its importance</p> <p>1. Techniques for analyzing strengths and weakness goal setting and teamwork</p>
<b>ENGINEERING GRAPHICS</b>	Types of quadrilaterals	Types of polygons	Unit 2 - Circles & its circumference - Circles and its definitions	Introduction to inscribing of figures - Inside a triangle	SUMMER BREAK	Understands different types of polygons and constructs it using only with pencils and compass

<b>PSYCHOLOGY</b>	<b>Unit 2:</b> Methods of Enquiry in Psychology- Goals, Steps of Enquiry	Observation Method, Survey Method,	Experimental Method, Case Study,	<b>UT 1</b>  Analysis of Data	Ethics, of Psychology Limitations of Scientific enquiry  Discussion of annual Project	Learners will be able to “ # Relate to the various methods used in Enquiry # Understand the details of each method # Discuss Goals, Limitations of research methods
<b>PHYSICAL EDUCATION</b>	Unit 2: Olympism Value Education. Olympism – Concept and Olympics Values (Excellence, Friendship & Respect)	Olympic Value Education – Joy of Effort, Fair Play, Respect for Others, Pursuit of Excellence, Balance Among Body, Will & Mind	Ancient and Modern Olympics. Olympics - Symbols, Motto, Flag, Oath, and Anthem	Olympic Movement Structure - IOC, NOC, IFS, Other members	SUMMER BREAK	Students will be able to: • Incorporate values of Olympism in your life. • Differentiate between Modern and Ancient Olympic Games, Paralympics, and Special Olympic games • Identity the Olympic Symbol and Ideals • Describe the structure of the Olympic movement structure
<b>PAT</b>	Class Management in PE Effective Physical Education Classes	Unit 3: Organizing Age Appropriate Physical Activities: Fitness Activities Balance Activities	Coordination Activities Rolling and Throwing Activities	Sports Period Planning Sample Lesson Plans	Practicals : portfolio	Effectively manage PE classes, organize age-appropriate activities, develop fitness, balance, coordination, and maintain practical portfolio records.
<b>SOCIOLOGY</b>	<b>Chapter 2:</b> Terms, Concepts & their usage in Sociology	Role, status and systems of stratification	<b>Unit 3:</b> Social Institutions	<b>Unit 3:</b> Economic, Political and Religious Institutions	<b>Unit 3:</b> Completion of Social institutions- school as an institution	<b>CHAP 2:</b> <b>Understand key sociological terms –</b>

	Types of Social Groups	Social control and Deviance	Introduction to Conflict and Functionalist Perspectives Family, Marriage & Kinship			<p>Define and explain concepts such as social groups, status, roles, norms, and institutions.</p> <p><b>Differentiate between concepts</b> – Distinguish between related terms (e.g., role vs status, ascribed vs achieved status, primary vs secondary groups).</p> <p><b>Apply concepts to real-life contexts</b> – Use sociological terms to interpret everyday situations like family, school, and peer interactions.</p> <p><b>Develop sociological thinking skills</b> – Use appropriate terminology to describe, question, and discuss social phenomena in a structured and scientific manner.</p> <p>CHAP 3: <b>Understand key concepts</b> – Define social institutions and explain their characteristics,</p>
--	------------------------	-----------------------------	---	--	--	---

						<p>including structure, norms, and functions.</p> <p><b>Identify major social institutions</b> – Describe the role and importance of institutions such as family, marriage, education, religion, economy, and polity.</p> <p><b>Differentiate forms and types</b> – Distinguish between different forms of institutions (e.g., types of family, marriage systems, and kinship patterns).</p> <p><b>Analyze functions and changes</b> – Examine how social institutions maintain social order and how they change over time due to social, economic, and cultural factors.</p>
--	--	--	--	--	--	---

Class: XI

# Indian School Wadi Kabir

ISWK SHARING KNOWLEDGE  
(Monthly Plan - July 2026)

SUBJECTS	Week - 1	Week - 2	Week - 3	Week - 4	Week - 5	Learning Outcomes
ENGLISH	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	Hornbill: "We're not afraid to Die... if We can be together (prose)	Hornbill: "We're not afraid to Die... if We can be together (prose)	Learners will be able to analyse themes of courage and resilience and reflect on the significance of teamwork in facing challenges.
MATHEMATICS	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	3-TRIGONOMETRY Signs of trigonometric functions. Domain and range and graphs. (Continue)	3-TRIGONOMETRY Expressing $\sin(x+y)$ and $\cos(x+y)$ in terms of $\sin x$ , $\sin y$ , $\cos x$ & $\cos y$ . Identities related to $\sin 2x$ , $\cos 2x$ , $\tan 2x$ , $\sin 3x$ , $\cos 3x$ and $\tan 3x$	Children recalls Positive and negative angles. Measuring angles in radians and in degrees and conversion from one measure to another. Definition of trigonometric functions with the help of unit circle. Expressing $\sin(x+y)$ and $\cos(x+y)$ in terms of $\sin x$ , $\sin y$ , $\cos x$ & $\cos y$ . Understands Identities related to $\sin 2x$ , $\cos 2x$ , $\tan 2x$ , $\sin 3x$ , $\cos 3x$ and $\tan 3x$

<b>PHYSICS</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	To understand and derive the equation using dimensional analysis. To check the correctness of the equation	Chapter: 4 Laws Of Motion: Intuitive concept of force. Inertia, Newton's first law of motion.	Learners will be able to analyse laws of motion  Students will be able to recognize ,the various types of inertia
<b>CHEMISTRY</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	Periodic Trends in Atomic Radii and Ionic Radii Periodic Trends in Ionization Enthalpy and Electron Gain Enthalpy	Periodic Trends in Electronegativity and Valency. Nomenclature of Elements with Atomic Number Greater than 100	Students will be able to:  Define atomic radius and ionic radius, and understand the factors influencing their sizes.Describe how atomic and ionic radii change across periods and down groups in the periodic table Explain the concepts of shielding and penetration, and their effects on effective nuclear charge and atomic size. Compare the sizes of cations and anions to their parent atoms, and understand the reasons for these differences.
<b>BIOLOGY</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	Chapter 15: Body Fluids and Circulation Human circulatory system. Disorders related to circulatory systems.  Ch 16 : Excretory Products and their	Ch 16 : Excretory Products and their Elimination, Disorders associated with the excretory system of humans. (Nephritis, dialysis and the process of	Learners will be able to Identify common disorders Uremia ,Renal failureKidney stones Understand basic concepts dialysis and kidney transplant.

				Elimination , organs of excretion in different animals, structure and function of nephron, Formation of urine.	introducing artificial kidney).	Students will be able to: Understand the process of countercurrent mechanism. Understand the reason for various diseases related to excretory system
<b>INFORMATICS PRACTICES</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	for loop and while loop, difference between for and while loop,range() function - Use of range() function in a loop	More programs with for loop and while loop Introduction to Jump statement using break	-Learners will be able to analyse -the concept of iteration (looping) in programming -Differentiate between for loop and while loop. -Identify situations where each loop is appropriately used.
<b>COMPUTER SCIENCE</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	ntroduction to iterative statements- for loop	Iterative construct types - for loop and while loop.	They will understand the concepts and syntax of using it.To make them to realise the usage of loops . This function range( ) has its syntax with default values.Should make make these points clear and usage of the function

<b>ACCOUNTANCY</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	Trial Balance Journal, Ledger & Trial Balance Comprehensive sums.	"Goods and Services Tax (GST):Characteri stics and Advantages."Goo ds and Services Tax (GST): Accounting- Journal/Ledger"	<ul style="list-style-type: none"> <li>- Analyse the nature of Goods &amp; Service Tax.</li> <li>-Describe various components and features of GST.</li> <li>-Gain practical knowledge about the preparation of various accounts.</li> </ul>
<b>BUSINESS STUDIES</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	Public, private and multinational company Merits and Limitations of types	Concepts and Types	<p>Develop an understanding of Public sector and private sector enterprises. Identify and explain the features, merits and limitations of different forms of public sector enterprises. Identify and explain the features, merits and limitations of different forms of public sector enterprises</p>

<p><b>ECONOMICS</b></p>	<p>SUMMER BREAK</p>	<p>SUMMER BREAK</p>	<p>SUMMER BREAK</p>	<p><b>Relationship between income and demand:</b>  Normal good and inferior good. Price Elasticity and its degree. Price elasticity of demand -</p>	<p>Relationship between income and demand: (Conti....)</p>	<p>Identify the type of the price elasticity shown in different cases. Represent the shift in the demand curve as income changes. Explain the various types of elasticity of demand Explain the exceptions of Law of demand and Solve the price elasticity numerical;</p>
<p><b>ENTREPRENEURSHIP</b></p>	<p>summer break</p>	<p>summer break</p>	<p>summer break</p>	<p>Chp 3: An Entrepreneurial Journey  Elements of business plan  Understand the reasons for success and failure of business plan  Differentiate between the Feasibility and Business Plan</p>	<p>Understand the reasons for success and failure of business plan  Differentiate between the Feasibility and Business Plan  Writing Notes</p>	<p>Students will be able to:  Identify and explain the key elements of a business plan.  Analyze the importance of each component of a business plan in guiding entrepreneurial decisions.  Understand the factors that contribute to the success of a business plan.  Identify common reasons for the failure of a business plan.</p>

						<p>Evaluate how proper planning, market analysis, and financial planning influence business plan outcomes. Differentiate between a feasibility study and a business plan in terms of purpose and content. Explain how a feasibility study helps in decision-making before preparing a business plan. Develop structured and concise notes on business plan concepts and related topics.</p>
<b>MARKETING</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	<p>7. Goal setting 8. Time Management Writing Notes</p>	<p>SUBJECT SPECIFIC SKILLS - SEGMENTATION, TARGETING &amp; POSITIONING SEGMENTATION</p> <ol style="list-style-type: none"> <li>1. Meaning</li> <li>2. Importance</li> <li>3. Bases</li> <li>4. Types</li> </ol> <p>TARGETTING</p> <ol style="list-style-type: none"> <li>1. Meaning</li> </ol>	<p>1. Strategies for managing the time</p> <ol style="list-style-type: none"> <li>1. Understand the concept of segmentation in marketing</li> <li>2. Recognize the significance of segmentation in marketing strategy</li> <li>3. Identify and comprehend the different bases of segmentation</li> </ol>

					2. Types	4. Classify segmentation types 5. Define targeting in the context of marketing strategy 6. Differentiate between the various targeting strategies
<b>ENGINEERING GRAPHICS</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	Inscribing of circles - Inside a hexagon. Introduction to Engineering Curves: Definition and applications of Ellipse, Parabola, Hyperbola, Involute, Helix, Cycloids and Sine Curve (FOR INTERNAL ASSESSMENT ONLY).	Inscribing of circles - Inside a pentagon and octagon	Introduces the new topic inscribing and understands how to inscribe circles in other figures
<b>PSYCHOLOGY</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	<b>Chp 3:-</b> Human Development Meaning of Development Life-Span Perspective on Development Growth, Development,	Human Development Factors Influencing Development Context of Development	Learners will be able to explain the different phases of development along with various aspects such as Physical, social etc

<b>PHYSICAL EDUCATION</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	Yoga Meaning and importance of Yoga Introduction to Astanga Yoga Yogic Kriyas (Shat Karma)	Pranayama and its types. Active Lifestyle and stress management through Yoga	students will be able to: <ul style="list-style-type: none"> <li>•Recognize the concept of yoga and be aware of the importance; of it</li> <li>•Identify the elements of yoga</li> <li>•Identify the Asanas, Pranayama's, meditation, and yogic kriyas</li> <li>•Know about relaxation techniques for improving concentration</li> </ul>
<b>PAT</b>				Unit 4: Children Health and Safety : Child Health Care	Safety Management Emergency Response	Ensure child health, manage safety, and respond to emergencies effectively.
<b>SOCIOLOGY</b>	SUMMER BREAK	SUMMER BREAK	SUMMER BREAK	Unit 4: Western Sociologists Introduction	Unit 4: Karl Marx	<b>Understand key thinkers and ideas</b> – Identify major sociologists such as Karl Marx, Emile Durkheim, and Max Weber, and explain their core concepts. <b>Explain major theories</b> – Describe key ideas like class conflict, division of labour, and rationalization, and

						<p>understand their relevance to society.</p> <p><b>Differentiate perspectives</b> – Compare the approaches of Marx, Durkheim, and Weber in understanding social structure and change.</p> <p><b>Develop analytical thinking</b> – Critically examine how classical sociological theories help in understanding modern societies.</p>

# Indian School Wadi Kabir

Class: XI

ISWK SHARING KNOWLEDGE  
(Monthly Plan - August 2026)

SUBJECTS	Week - 1	Week - 2	Week - 3	Week - 4	Week - 5	Learning Outcomes
<b>ENGLISH</b>	Snapshots: The Address (prose)	Hornbill: Discovering Tut: the Saga Continues	Hornbill: Discovering Tut: the Saga Continues  GRAMMAR: Integrated exercises	Reading Comprehension-Note Making	WRITING: Poster Writing	able to make Notes and Summarize using the right format, layout and language structure. -able to answer local, global and competency based questions based on the literature texts. -Use grammatical structures accurately and appropriately
<b>MATHEMATICS</b>	4 - Statistics  Measures of Dispersion, Mean deviation about mean & median.	4 - Statistics  Mean deviation about mean & median for continuous frequency distribution, Variance, Standard deviation of a discrete frequency distribution.	5 - Complex Numbers  Complex Numbers concept, Algebra of Complex Numbers, Power of $i$ , The square root of a negative real number. The Modulus and the Conjugate of a Complex Number, Quadratic Equations.	5 - Complex Numbers  The Modulus and the Conjugate of a Complex Number, Quadratic Equations.  6 - Linear Inequalities  Concept inequalities, Algebraic Solutions of Linear Inequalities in One Variable and their Graphical Representation	6 - Linear Inequalities  Solutions of Linear Inequalities in One Variable and their Graphical Representation	Students understand the concept Measures of Dispersion, Mean deviation about mean & median. Mean deviation about mean & median for continuous frequency distribution, Variance, Standard deviation .  Understands the concept Complex Numbers Algebra of Complex Numbers, Power of $i$ , The

						square root of a negative real no. The Modulus and the Conjugate of a Complex Number,
<b>PHYSICS</b>	Law of conservation of linear momentum and its applications. Equilibrium of concurrent forces. Static and kinetic friction, laws of friction, rolling friction, lubrication.	Dynamics of uniform circular motion: Centripetal force, examples of circular motion (vehicle on a level circular road, vehicle on banked road). Exercise and Worksheet	Chapter 5: Work, energy and power: Work done by a constant force and a variable force; kinetic energy, work-energy theorem, power.	Notion of potential energy, potential energy of a spring, conservative forces, non-conservative forces.	Elastic and inelastic collisions in one and two dimensions. Worksheet and exercise questions Chapter-6: System of Particles and Rotational Motion	Learners will be able to analyse different forms of energy  Students will be able to recognize ,the various types of collisions
<b>CHEMISTRY</b>	Chapter 4- Chemical Bonding and Molecular Structure Bond Parameters Lewis Structures	Polar Character of Covalent Bonds Covalent Character of Ionic Bonds Valence Bond Theory	Resonance Geometry of Covalent Molecules	VSEPR Theory . Concept of Hybridization	Molecular Orbital Theory Hydrogen bonding	Students will learn about bond length, bond energy, and bond order.
<b>BIOLOGY</b>	Ch 17: Locomotion and Movement- Types of movement, Muscle, Structure of contractile proteins, Skeletal system, Disorders of skeletal system	Ch 18: Neural Control and Coordination - Human neural system, Generation and conduction of nerve impulse, CNS	<b>Ch 18: Neural Control and Coordination. Human neural system, Generation and conduction of nerve impulse, CNS</b>	Ch 19 : Chemical Coordination and Integration- Human endocrine system, various endocrine glands and their functions, mechanism of hormone action.	Ch 19 : Chemical Coordination and Integration- Human endocrine system, various endocrine glands and their functions, mechanism of hormone action.	To understand the mechanism involved in muscle contraction and explain the various parts of the human skeletal system. To understand and study the Neuron and nerves; Nervous system in humans - central nervous system;

						peripheral nervous. -To study the system and visceral nervous system; generation and conduction of nerve impulse.
<b>INFORMATICS PRACTICES</b>	Introduction to List, creation, declaration, traversing a list Aliasing and comparing lists.	Operation on lists concatenation, repetition, membership testing,	Indexing and slicing on list.	Built-in functions using list – len(),list(),append(),insert(), count(),index(),remove(), pop(), reverse(), sort(), min(),max(),sum()	Dictionary: concept of key-value pair, creating, initializing, traversing, updating and deleting elements	Students will be able to understand -List and Dictionary as data structures in Python. -Identify the characteristics of lists (ordered, mutable) and dictionaries (key-value pairs, unordered). -Recognize syntax for creating lists and dictionaries and various builtin functions available
<b>COMPUTER SCIENCE</b>	Types of Iterative constructs – range() function - Use of range() function in a loop Programs with for and while loops	More programs with loops	Nested loops. Programs to make patterns of different types	Types of sequences in Python – Strings, Lists, Tuples and Dictionary - Strings - Introduction	Introduction to strings.  Strings: Traversing and compare – string operators - concatenation	They will understand the concepts and syntax of using it.To make them to realise the usage of loops This function range( ) has its syntax with default values.Should make make these points clear and usage of the function.

					and replication of strings	Need to brief on different types of sequences. Using examples we can differentiate effectively. Limitation and uses can be made clear
<b>ACCOUNTANCY</b>	Cash Book- "Cash Book: Simple, cash book with bank column and petty cashbook"	Petty Cash Book. Other Subsidiary books  Purchase and Sales Book	Purchases return book  Sales return book  Journal proper"	Posting from subsidiary books	Bank Reconciliation Statement.	-Explain the need for special purpose books.  -Describe various special purpose books and their purpose.  -Explain the use of cash books.  -Describe a cash book and compare it with journals and ledgers.  -Analyse different types of column cash books.  -Illustrate posting entries in a single-column cash book.

						<p>-Learn the concept of Double Column Cash Book</p> <p>-Illustrate posting entries in double-column cash book.</p> <p>-Describe the features of the petty cash book.</p> <p>-List the expenses to be posted in a petty cash book. Posting from the Petty Cash Book .</p>
<b>BUSINESS STUDIES</b>	Business Services - Understand the meaning and types of business services.	Banking Concept, Types of Banking Services and Accounts	Insurance Concept, Principles and Types Concept, Scope, Benefits and differences	Emerging Modes of Business. Concept, Scope, Benefits and differences Meaning of e-business.	The scope of e-business. Benefits of e-business - Distinguish e-business from traditional business	Meaning of e-business. The scope of e-business. The benefits of e-business Distinguish e-business from traditional business.
<b>ECONOMICS</b>	<b>Introduction:</b> Textual, Tabular Presentation. Bar diagrams and Pie diagrams.	Presentation of data: (contd.) Frequency diagrams, Histogram	<b>Measure of Central Tendency</b> Mean Weighted mean	Measure of Central Tendency (Conti...) Median	Measure of Central Tendency (Conti...) Mode	Represent the data through various diagrams and graphs Construct bar diagram and

		Ogives, frequency polygon, frequency curve, Time Line Graph				histogram. Differentiation between bar and histogram. List the importance of a time-line graph and its usage in real-life scenarios. Construct the less than & more than frequency distribution. Understand the need for summarising a set of data by one single number. Develops and understands which type of average would be the most useful in a particular situation. Calculate the mean using different methods for Individual, discrete, and class interval series. Calculate the median using
--	--	---	--	--	--	---

						different methods for Individual, discrete, and class interval series. Mode calculations.
<b>ENTREPRENEURSHIP</b>	<p>Unit 4: ENTREPRENEURSHIP AS INNOVATION AND PROBLEM SOLVING</p> <p>Analyze why entrepreneurs are known as problem solvers Innovations Leading to Entrepreneurial Ventures Concept of Social Entrepreneurship</p>	<p>Difference between Entrepreneurship and Social Entrepreneurship Need for Social Entrepreneurship</p>	<p>Role of technology and social media in creating new forms of business</p> <p>Writing Notes</p>	Writing Notes	<p>UNIT V - UNDERSTANDING THE MARKET</p> <p>PART A - CONCEPT OF MARKET</p> <p>Understand the concept of market and its evolution .over the time</p>	<p>Students will be able to:</p> <p>Explain why entrepreneurs are considered problem solvers in society and business. Analyze how entrepreneurs identify problems and create innovative solutions. Describe how innovations lead to the development of new entrepreneurial ventures. Understand the concept of social entrepreneurship and its objectives. Differentiate between entrepreneurship and social entrepreneurship. Explain the need and importance of social entrepreneurship in addressing social issues.</p>

						<p>Evaluate the role of technology in enabling innovation and business creation.</p> <p>Assess the impact of social media in promoting, scaling, and transforming modern businesses.</p> <p>Develop structured and well-organized notes on innovation, problem solving, and social entrepreneurship concepts.</p>
<b>MARKETING</b>	<p><b>TARGETTING</b></p> <p>1. Meaning</p> <p>2. Types</p>	<p>3. Criteria of selecting the Target Markets</p> <p><b>POSITIONING</b></p> <p>1. Meaning and Process</p>	<p>Types of Positioning, Bases of positioning</p> <p>Worksheet Discussion</p>	<p><b>UNIT 4-FUNDAMENTALS OF MARKETING MIX</b></p> <p>1. Definition of Marketing Mix</p> <p>2. Characteristics of Marketing Mix</p>	<p>3. Developing a Marketing Mix</p>	<p>1. Understand the concept of segmentation in marketing</p> <p>2. Recognize the significance of segmentation in marketing strategy</p> <p>3. Identify and comprehend the different bases of segmentation</p> <p>4. Classify segmentation types</p> <p>5. Define targeting in the context of marketing strategy</p>

						<p>6. Differentiate between the various targeting strategies</p> <p>7. Understand the concept and components of the marketing mix.</p> <p>8. Identify and describe the key attributes of a marketing mix</p>
<b>ENGINEERING GRAPHICS</b>	Unit 3: Orthographic projections of regular solids - Introduction & explanation of four quadrants	Projection of points and lines	Different views of object in orthographic projection	Projection of points and lines in first and third angle method of projection.	Introduction to orthographic projection of Regular solids.	Understands the three dimensional solids - views and namings
<b>PSYCHOLOGY</b>	Developmental Stages with details Prenatal Stage Infancy Childhood	Gender and Sex Roles Challenges of Adolescence	Challenges of Adulthood and Old age	<p><b>Chp 4. Sensory, Attentional and Perceptual Process</b></p> <p>Sensation- 5 senses</p> <p>Theories of Selective Attention ADHD</p> <p>Perceptual process</p>	Attentional Process - Theories- Filter, Filter Attenuation	<p><b>Understand key concepts of Development</b></p> <p>Learners will be able to:-</p> <p>*Describe Sensory, Attentional and Perceptual Processes</p>

<p><b>PHYSICAL EDUCATION</b></p>	<p>Unit-4 Physical Education and Sports for Children with Special Needs. Concept of Disability and Disorder. Types of Disability, its causes &amp; nature (Intellectual disability, Physical disability).</p>	<p>Disability Etiquette. Aim and objectives of Adaptive physical Education. Role of various professionals for children with special needs (Counselor, Occupational Therapist, Physiotherapist, Physical Education Teacher, Speech Therapist, and Special Educator)</p>	<p>Unit 5: Physical Fitness, Wellness, and Lifestyle. Meaning &amp; importance of Wellness, Health, and Physical Fitness.</p>	<p>Components/Dimensions of Wellness, Health, and Physical Fitness Traditional Sports &amp; Regional Games for promoting wellness.</p>	<p>Leadership through Physical Activity and Sports. Introduction to First Aid – PRICE</p>	<p>Students will be able to:</p> <ul style="list-style-type: none"> <li>•Identify the concept of Disability and Disorder.</li> <li>•Outline types of disability and describe their causes and nature.</li> <li>•Adhere to and respect children with special needs by following etiquettes.</li> <li>•Relate various types of professional support for children with special needs along with their roles and responsibilities.</li> <li>•Explain wellness and its importance and define the components of wellness.</li> <li>•Distinguish between skill- related and health-related components of physical fitness.</li> <li>•Illustrate traditional sports and regional games to promote wellness.</li> <li>•Relate leadership through physical activity and sports</li> <li>•Illustrate the different steps used in first aid - PRICE.</li> </ul>
----------------------------------	---	--	---	--	---	---

<b>PAT</b>	Unit 1 – -Communication Skills -Methods of Communication -Verbal Communication	-Non-verbal Communication -Communication Cycle & Feedback	-Writing Skills – Parts of Speech -Writing Skills – Sentences	-Barriers to Effective Communication -	PRACTICALS: KHELO INDIA FITNESS BATTERY	Develop effective communication, writing, verbal, non-verbal, and feedback skills.
<b>SOCIOLOGY</b>	Unit 4: Durkheim	Unit 4: Max Weber	Unit 5: Culture and Socialization  Introduction to Culture, definition and dimensions	Unit 5: Socialization & its agencies	Unit 5: Agencies of Socialization (Family, Peer group, School and Mass Media)	<p><b>Understand key concepts</b> – Define culture, subculture, and socialization, and explain their role in shaping human behavior.</p> <p><b>Explain socialization process</b> – Describe how individuals learn norms, values, roles, and behaviors through family, peers, education, and media.</p> <p><b>Differentiate types of culture</b> – Distinguish between material and non-material culture, and between dominant and subcultures.</p> <p><b>Analyze the impact of culture</b> – Examine how culture influences social</p>

						<p>identity, beliefs, and everyday interactions. <b>Apply sociological perspective</b> – Use examples from everyday life to illustrate how socialization and cultural practices shape individual and group behavior.</p>

**Class: XI**

**ISWK SHARING KNOWLEDGE  
(Monthly Plan - September 2026)**

SUBJECTS	Week - 1	Week - 2	Week - 3	Week - 4	Week - 5	Learning Outcomes
<b>ENGLISH</b>	Hornbill: The Laburnum Top (Poem)	Hornbill: The Laburnum Top (Poem)	ASSESSMENT- 1	ASSESSMENT - 1	ASSESSMENT- 1	-to perceive the overall meaning and organisation of the text To specifically develop the ability to be original and creative in interpreting opinion, develop the ability to be logically persuasive in defending one's opinion and making notes based on a text and write answers.
<b>MATHEMATICS</b>	7 - Permutations and Combinations  Fundamental Principle of Counting. Permutations  Permutations when all the	7 - Permutations and Combinations  Practice problems on permutation. Combinations,  Practice problems on Combinations.  <b>Revision for AS 1</b>	ASSESSMENT- 1	ASSESSMENT- 1	ASSESSMENT- 1	Students understand the Fundamental Principle of Counting. Permutations  Permutations when all the objects are not distinct. Understand the concept Fundamental Principle of Counting. Permutations

	objects are not distinct	
<b>PHYSICS</b>	<p>Centre of mass of a two-particle system, momentum conservation and</p> <p>Centre of mass motion. Centre of mass of a rigid body; centre of mass of a uniform rod</p> <p>Moment of a force, torque, angular momentum, law of conservation of angular momentum and its , rigid body rotation and equations of rotational motion, comparison of linear and rotational motions. Moment of applications.</p>	<b>. Revision for AS 1</b>

ASSESSMENT- 1

ASSESSMENT- 1
---------------

ASSESSMENT- 1

Permutations when all the objects are not distinct.
Learners will be able to analyse centre of mass and moment of force

	Equilibrium of rigid bodies,					
<b>Chemistry</b>	Chapter -7-Redox Reactions Understanding Oxidation Numbers Identifying Redox Reactions Balancing	Revision	ASSESSMENT- 1	ASSESSMENT- 1	ASSESSMENT- 1	Students will learn to assign oxidation numbers to elements in compounds. Students will identify redox reactions and distinguish them from non-redox reactions. Students will learn the steps to balance redox reactions using the halfreaction method
<b>BIOLOGY</b>	Chapter 2 : Structural Organization in Animals- Frog structure and anatomy	Revision	ASSESSMENT- 1	ASSESSMENT- 1	ASSESSMENT- 1	To recap the knowledge on different types of tissues in animals. To study the different morphology and anatomy of different systems(digestive, respiratory, circulatory and nervous of frog.
<b>INFORMATICS PRACTICES</b>	dictionary methods and built-in functions – dict(), len(), keys(), values(), items(),	Revision for Assessment 1	ASSESSMENT I	ASSESSMENT I	ASSESSMENT I	Learners will be able to -Understand builtin methods in dictionary -Compare and justify the use of lists vs dictionaries in different scenarios.

	update(), del(), clear(). Comparison between list and dictionary					-Analyze given programs and predict outputs.
<b>COMPUTER SCIENCE</b>	Strings: String Methods – String slices - Writing programs using strings	Revision for Assessment 1	ASSESSMENT I	ASSESSMENT I	ASSESSMENT I	To know the syntax and implementation of different operations using operators of strings. What is string and why string? Different operations on strings like slicing, use of these in programs. To make it more clear on the string operations
<b>ACCOUNTANCY</b>	Bank Reconciliation Statement	Revision for Assessment 1	ASSESSMENT I	ASSESSMENT I	ASSESSMENT I	-Explain the steps to prepare and create a proforma of bank reconciliation statements. - Analyses events that cause disparity between cash and passbook balance. - Prepare a bank reconciliation statement when a

						<p>favourable/unfavourable bank balance as per the cash book/overdraft exists.</p> <p>- Revise and recall the concepts learned and practice various sums as part of revision.</p>
<b>BUSINESS STUDIES</b>	<p>Social Responsibility of Business and Business Ethics</p> <p>Case of social responsibility towards owners, investors, consumers, employees, government and community</p>	<p>Role of business in environment protection</p> <p>Business Ethics - Concept and Elements</p>	<b>ASSESSMENT-1</b>	ASSESSMENT - 1	<b>ASSESSMENT- 1</b>	<p>The concept of social responsibility.</p> <p>Examine the case for social responsibility. Identify the social responsibility towards different interest groups. Appreciate the role of business in environment protection.</p> <p>The concept of business ethics.</p> <p>The elements of business ethics.</p>
<b>ECONOMICS</b>	<p>Measure of Central Tendency (Contd.)</p> <p>Mode</p>	<p>Grouping method- Mode -numericals solving</p>	<b>ASSESSMENT-1</b>	ASSESSMENT - 1	<b>ASSESSMENT- 1</b>	<p>Calculate the mode using grouping and formula methods for Individual, discrete, and class interval series.</p>

<b>ENTREPRENEURSHIP</b>	Understand the meaning and concept E-Business and E-Commerce. Its role in the modern day business community Writing Notes	Revision	ASSESSMENT-1	ASSESSMENT-1	ASSESSMENT-1	Students will revise and prepare for examinations
<b>MARKETING</b>	Worksheet Discussion and Revision	Revision	ASSESSMENT-1	ASSESSMENT-1	ASSESSMENT-1	Discuss the competency based questions related to Marketing mix
<b>ENGINEERING GRAPHICS</b>	Solids with axis perpendicular to HP	Solids with axis at right angles to VP & solids parallel to both HP and VP.	ASSESSMENT1	ASSESSMENT 1	ASSESSMENT 1	Recognises the two different planes and draw the views of objects
<b>PSYCHOLOGY</b>	Socio –Cultural influences on Perception  Monocular & Binocular Cues,	Perceptual Constancies Illusions	Assessment 1	Assessment 1	Assessment 1	Learners will be able to:-  *Describe Sensory, Attentional and Perceptual Processes  * Elaborate Monocular & Binocular Cues,

						*Give examples of Perceptual Constancies
<b>PHYSICAL EDUCATION</b>	Unit 6:Test, Measurement & Evaluation Define Test, Measurements and Evaluation. Importance of Test, Measurements and Evaluation in Sports.	Calculation of BMI, Waist – Hip Ratio, Skin fold measurement (3-site) Somato Types (EndomorphyMesomorphy & Ectomorphy. Measurements of health-related fitness	ASSESSMENT1	ASSESSMENT1	ASSESSMENT1	Students will be able to: <ul style="list-style-type: none"> <li>•Define the terms test, measurement, and evaluation,</li> <li>•Differentiate norm and criterion referenced standards,</li> <li>•Differentiate formative and summative evaluation,</li> <li>•Discuss the importance of measurement and evaluation processes,</li> <li>•Understand BMI: A popular clinical standard and its computation</li> <li>•Differentiate between Endomorphy, Mesomorphy &amp; Ectomorphy h describe the procedure of Anthropometric Measurement</li> </ul>

<b>PAT</b>	REVISION	REVISION	ASSESSMENT 1	ASSESSMENT 1	ASSESSMENT 1	Preparing the child for objective and subjective type of answer
<b>SOCIOLOGY</b>	Revision of Chapters 1 to 5	Revision of Chapters 1 to 5	ASSESSMENT1	ASSESSMENT1	ASSESSMENT1	Students become confident through the revision process and competent to answer all types of questions in the Assessment 1 exam,

# Indian School Wadi Kabir

Class: XI

ISWK SHARING KNOWLEDGE  
(Monthly Plan - October 2026)

SUBJECTS	Week - 1	Week - 2	Week - 3	Week - 4	Week - 5	Learning Outcomes
<b>ENGLISH</b>		Hornbill: The Voice of the Rain (Poem)	WRITING: Debate Writing GRAMMAR: Clauses	Hornbill: The Adventure(Prose)	Hornbill: The Adventure(Prose)	-to appreciate and analyse special features of languages that differentiate literary texts from non-literary ones, explore and evaluate features of character, plot, setting, etc. -to express opinions, facts, arguments in the form of speech or debates, using a variety of accurate sentence structures -write answers according to the requirements of various subjects.
<b>MATHEMATICS</b>		8 - Binomial Theorem Binomial theorem for any positive integer n, Observations and some special cases of Binomial expansion	8 - Binomial Theorem General & Middle terms Practice problems based on Binomial theorem	9 - Sequences and Series To recognize the concepts related to Arithmetic progression.	9 - Sequences and Series Relationship Between A.M. and G.M To Practice problems based on GP More practice	Understands the concept Binomial theorem for any positive integer n, Observations and some special cases of Binomial expansion. Understand the General & Middle terms concept Practice

				Problems based on AP  Geometric Progression (G.P.)	question on AP & GP	problems based on Binomial theorem
<b>PHYSICS</b>		<b>Acceleration due to gravity and its variation with altitude and depth. Gravitational potential energy and gravitational potential</b> Escape speed, orbital velocity of a satellite.	Chapter–8: Mechanical properties of solids: Elasticity, Stress-strain relationship, Hooke's law, Young's modulus, bulk modulus, shear modulus of rigidity, Poisson's ratio; elastic energy.	Viscosity, Stokes' law, terminal velocity, streamline and turbulent flow, critical velocity  Bernoulli's theorem and its simple applications	Applications of surface tension ideas to drops, bubbles and capillary rise.  <b>Chapter 10: Thermal properties of matter: Heat, temperature, thermal expansion.</b>  <b>Thermal expansion of solids, liquids and gases.</b>	Learners will be able to analyse stress, strain  Students will be able to recognize ,the various types of modulus of elasticity

<p><b>Chemistry</b></p>		<p>Chapter 8-Organic Chemistry - Some Basic Principles and Techniques Classification of Organic Compounds</p>	<p>IUPAC Nomenclature Electronic Displacements in Covalent Bonds Resonance and Hyperconjugation</p>	<p>Homolytic and Heterolytic Fission Free Radicals and Carbocations Carbanions and Their Reactions</p>	<p>Electrophiles and Nucleophiles Methods of Purification Qualitative and Quantitative Analysis</p>	<p>Students will explore the applications of redox reactions in realworld scenarios. Classify organic compounds based on structure and functional groups. Learn the rules for naming organic compounds according to IUPAC. Understand electronic displacements and their effects.</p>
<p><b>BIOLOGY</b></p>	<p>Chapter 6 : Anatomy of flowering plants- The tissue system, Anatomy of dicots and monocots</p>	<p>Chapter 5. Morphology Of Flowering plants- The root, The stem, The leaf,</p>	<p><b>Chapter 5. Morphology Of Flowering plants- The inflorescence, parts of a flower,</b></p>	<p>Chapter 5. Morphology Of Flowering plants  Chapter 1 : Living World</p>	<p><b>Chapter 2: Biological Classification</b></p>	<p>To learn and understand the anatomy of dicot and monocot plants. To Introduce and observe the different parts of flowering plants and study their features in pollination.To learn about the modification of root, stem and leaves. Understand different theories on classification.Three domains of life, Binomial Nomenclature, Classification To introduce the learners to various different classes of plant kingdom and</p>

						<p>their salient features.</p> <p>Understand the concepts and contributions in classification of plants and animals.</p>
<b>INFORMATICS PRACTICES</b>	<p>Database Concepts: Introduction to database concepts and its need, Database Management System.</p>	<p>Relational data model: Concept of domain, tuple, relation, candidate key, primary key, alternate key</p>	<p>Introduction to MySQL, creating a database using MySQL, Data Types</p>	<p>Advantages of using Structured Query Language, Data Definition Language, Data Query Language and Data Manipulation Language</p>	<p>DDL COMMANDS- CREATE DATABASE, USE DATABASE, CREATE TABLE , DATA TYPES IN SQL</p>	<p>Students will learn the concept of a database. Why a database What is Database management system and its applications. Students will learn how to create a table, insert records into it and use select statement to retrieve the records Students will learn how to create a table, insert records into it and use select statement to retrieve the records.</p>
<b>COMPUTER SCIENCE</b>	<p>Lists - Introduction</p>	<p>Lists – Introduction – Operators using Lists – List Methods</p>	<p>Lists Functions – Programs using Lists – Tuples – Introduction – Comparison between List and Tuples</p>	<p>Tuples - Operators - Built in functions - tuple assignment</p>	<p>Dictionary</p>	<p>Different operations on lists like slicing, methods use of these in programs.To make it more clear on the List operations . To understand the difference between lists and tuples.Comparison between them . To</p>

						know what is tuple and its properties..
<b>ACCOUNTANCY</b>	<b>ASSESSMENT I</b>	Bank Reconciliation Statement	Depreciation - Depreciation: Meaning, Features, Need, Causes, factors, Other similar terms: Depletion and Amortisation, Methods of Depreciation.	Preparation of Asset Account and Provision for depreciation Account	Provisions & Reserves  Meaning, Difference and types	<ul style="list-style-type: none"> <li>- Reconcile cash book and passbook balance by preparing bank reconciliation statements in case of bank overdraft.</li> <li>- Analyse the need for taking depreciation into consideration with respect to the principles of accounting.</li> <li>Depreciation and Depreciation Assets.</li> <li>-Explain the treatment of depreciation in the books of accounts and justify why fixed assets are known as depreciable assets.</li> <li>- Articulate the role of depreciation in the preparation of financial statements and describe the factors influencing depreciable assets.</li> <li>-Analyses the features of</li> </ul>

						<p>depreciable assets and the factors that determine the expected useful life of an asset.</p> <p>-Describe the straight line and written down methods to calculate depreciation.</p> <p>-Articulate various methods of recording depreciation.</p> <p>-Explain and practice 'charging depreciation to asset account', 'creating provision for depreciation account/accumulated depreciation account', disposal of asset account' and the accounting treatment of addition or extension to the existing assets.</p> <p>-Differentiate between provision and reserve on the basis of purpose, presentation, effect on taxable profit, element of</p>
--	--	--	--	--	--	---

						compulsion, and payment of dividend.
<b>BUSINESS STUDIES</b>	<b>ASSESSMENT-1</b>	Sources of Business Finance	Owners' funds- equity shares, preferences share, retained earnings	Borrowed funds: debentures and bonds, loan from financial institution and commercial banks.	public deposits, trade credit, Inter Corporate Deposits (ICD)	The meaning, nature and importance of business finance. The various sources of funds into owners' funds. The meaning of owners' funds. The meaning of borrowed funds. The concept of debentures, bonds, loans from financial institutions and commercial banks, Trade credit and inter corporate deposits. Distinguish between owners' funds and borrowed funds
<b>ECONOMICS</b>	<b>ASSESSMENT-1</b>	Producer Behaviour and Supply: Meaning, Short run and Long run. TP, AP and MP, Returns to a factor.	Producer Behaviour and Supply (Contd.) Cost: TC, TFC, TVC, AC, AFC, AVC & MC -Meaning and their relationship	Producer Behaviour and Supply (Contd.) Revenue: TR and MR- Meaning and relationship Supply: meaning, slope.	Producer Behaviour and Supply (Contd.) Measurement of PES	Distinguishes between short run and long run Analyse how important is the concept of cost in the production process. Explain the revenue concept.

						<p>Show the revenue curve and analyse the profit concepts.  State the meaning of supply. Learns about movements.  State the importance of PES, solve numericals...</p>
ENTREPRENEURSHIP	ASSESSMENT-1	<p>Part B - ANALYZING THE ENVIRONMENT</p> <p>Part C - MARKET RESEARCH</p> <p>Analyze the Market Environment at Micro and Macro Level  Understand the concept of Market research  Evaluate the market research process</p>	<p>Understand the steps involved in Market survey</p> <p>Elicit the importance of Market survey</p> <p>Understand the concept of Marketing Mix</p>	<p>Detailed explanation for  Product  Price  Place  Promotion</p>	Writing Notes	<p>Students will be able to:</p> <ul style="list-style-type: none"> <li>● Explain the concept and importance of market research in entrepreneurship.</li> <li>● Evaluate the steps involved in the market research process.</li> <li>● Describe the steps involved in conducting a market survey.</li> <li>● Understand and explain the importance of market surveys in decision-making.</li> </ul>

						<ul style="list-style-type: none"> <li>• Define and explain the concept of the marketing mix.</li> <li>• Identify and explain the components of the marketing mix.</li> </ul>
<b>MARKETING</b>	ASSESSMENT-1	4. Importance of Marketing Mix 5. Types of Marketing Mix 6. 4C'S of Marketing Mix 7.P's of Service Marketing Mix	Worksheet Discussions EMPLOYABILITY SKILLS - ENTREPRENEURSHIP SKILLS 1. Introduction to Entrepreneurship 2. Types of Business Activities	EMPLOYABILITY SKILLS - ENTREPRENEURSHIP SKILLS 3. Values & Attitudes of an Entrepreneur 4. Problem Solving	5. Business Idea 6. Customer Needs 7. Knowing competitors 8. Business Plan	4. Recognize the significance of the marketing mix in strategic marketing planning. 5. Differentiate between various types or models of marketing mix. 6. Understand the customer-centric approach in marketing strategy. 7. Define the concept of entrepreneurship 8. Understand the values and attitudes required to be an entrepreneur 9. Discuss the problem solving techniques

<b>ENGINEERING GRAPHICS</b>	ASSESSMENT 1	Unit 4: Sectional Projection of Regular Solids - Sectional Projection of vertical solids	Sectional projections of solids with axis at right angles to V.P.	Sections of solids with axis parallel to both HP and VP	Sections of solids under all the three conditions (vertical, horizontal and oblique sections)	Understands about the new chapter and identifies the different sectional views of an object
<b>PSYCHOLOGY</b>	<b>Chp 5- Learning</b>  Introduction  Definition, Nature	Conditioning- Classical and Instrumental Determinants Learning Types Cognitive  Skill ; Verbal Learning - Paired associate, Serial	Learning Principles Reinforcement, Aversive Therapy, Systematic Desensitisation	<b>Chp 6:-Human Memory</b>  Introduction Nature of memory Information Processing Approach:  The Stage Model Memory Systems:  Sensory, Short Term and Long Term Memory  Chunking	Levels of Processing  Types of Long-term Memory  Long term Memory Classification  Mnemonics Of Imagery/Organizat ion	Learners will be able to;- Elaborate on Nature and process of learning *Describe Conditioning and types with determinants Recall # Human memory with various models and theories of Forgetting: *Understand the nature of memory Distinguish between different types of memory *Appreciate the constructive and reconstructive processes in memory Understand the nature and causes of forgetting

						Learn the strategies for improving memory
<b>PHYSICAL EDUCATION</b>	Unit-7. Fundamentals of Anatomy, Physiology in Sports. Definition and importance of Anatomy and Physiology in Exercise and Sports.	Functions of Skeletal System, Classification of Bones, and Types of Joints.	Properties and Functions of Muscles.	Structure and Functions of Circulatory System and Heart.	Structure and Functions of Respiratory System.	Students will be able to: <ul style="list-style-type: none"> <li>•Identify the importance of anatomy and physiology.</li> <li>•Recognize the functions of the skeleton.</li> <li>•Understand the functions of bones and identify various types of joints.</li> <li>•Figure out the properties and functions of muscles and understand how they work.</li> <li>•Understand the anatomy of the respiratory system and describe it's working.</li> <li>•Identify and analyses the layout and functions of Circulatory System.</li> </ul>
<b>PAT</b>	Unit 2 – Self-Management Skills Stress Management Self-Awareness	-Goal Setting -Time Management & PRACTICALS	UNIT 3 ICT Skills: Basic Computer Operations -Basic File Operations	-Computer Care & Maintenance -Computer Security & Privacy	Revising all topics	Develop self-management, stress management, self-awareness, goal setting, time

	(Strength & Weakness) -Self-Motivation					management, and basic ICT skills effectively.
<b>SOCIOLOGY</b>	Assessment 1	Unit 6: Social Change- concept, types with examples	Unit 6: Types of Social Change and sources of change	Unit 6: Social Order-related concepts	Unit 6: Contestation, Crime & Violence in the context of Social Order	<p><b>Define and Explain Social Change</b> – Students will be able to define social change and describe its nature, forms, and patterns in society.</p> <p><b>Identify Factors of Change</b> – Students will be able to analyze the economic, technological, cultural, and political factors that contribute to social change.</p> <p><b>Understand Theories of Social Change</b> – Students will be able to explain classical and contemporary sociological theories related to social change.</p> <p><b>Assess Impacts of Change</b> – Students will be able to evaluate the consequences of social change on individuals, groups, and social institutions.</p>

# Indian School Wadi Kabir

**Class: XI**

**ISWK SHARING KNOWLEDGE  
(Monthly Plan - November 2026)**

SUBJECTS	Week - 1	Week - 2	Week - 3	Week - 4	Week - 5	Learning Outcomes
<b>ENGLISH</b>	Snapshots: Mother's Day (Play)	Snapshots: Mother's Day (Play)	Hornbill: Silk Road	Hornbill: Silk Road	GRAMMAR: Transformation of sentences	-to extrapolating about the story read or life of characters after the story ends defending characters' actions in the story - to interpret texts in different ways. -write answers according to the requirements of various subjects.
<b>MATHEMATICS</b>	10 - Straight lines  To Introduce, Slope of a Line  Angle between two lines,  To understand various Forms of the Equation of a Line.	10 - Straight lines  To Practice problems on straight lines.  To understand General equation of a line  Distance of a point from a line  More practice questions in a straight line.	11 - Conics  Sections of a Cone, Circle  To solve Problems on circle	11 - Conics  Parabola. Problems on Parabola Ellipse Problems on Ellipse. Hyperbola Problems on Hyperbola  ASSESSMENT-2	ASSESSMENT-2	Understands Slope of a Line concept  Angle between two lines,  To understand various Forms of the Equation of a Line. Practice problems on straight lines. understands General equation of a line. Distance of a point from a line. More practice

						questions on straight line.
<b>PHYSICS</b>	Heat, temperature, thermal expansion  Thermal expansion of solids, liquids and gases, anomalous expansion of water.  specific heat capacity; Cp, Cv - calorimetry; change of state - latent heat capacity	Heat transfer-conduction, convection and radiation, thermal conductivity. Qualitative ideas of Blackbody radiation, Wein's displacement Law, Stefan's law,	Chapter 11: Thermodynamics: Thermal equilibrium and definition of temperature, zeroth law of thermodynamics, heat, work and internal energy	.ASSESSMENT-2	ASSESSMENT-2	Students will be able to recognize ,different types of specific heat capacity Students understand the thermodynamics laws
<b>Chemistry</b>	Chapter 9- Hydrocarbons  Introduction to Hydrocarbons  Aliphatic Hydrocarbons - Alkanes Nomenclature	Hydrocarbons- Conformation of Alkanes (Ethane)  Physical Properties of Alkanes  Chemical Reactions of Alkanes	Chapter 10- Hydrocarbons Alkenes Nomenclature and Structure Geometrical Isomerism in Alkenes Chemical Reactions of Alkenes Revision	ASSESSMENT-2	ASSESSMENT-2	Students will understand the concept of conformation in alkanes, focusing on ethane. Students will learn about the physical properties of alkanes.

	Isomerism in Alkanes					
<b>BIOLOGY</b>	Unit 1: Chapter 3 Plant kingdom- Algae, Bryophyta, Pteridophytes, Gymnosperms, Angiosperms.	Chapter 4 : Animal Kingdom- Basis of classification, Classification of animals and various phylums(Porifera , Coelentrata,Platyhelminthes, Aschelminthes, Annelida, Arthropoda, Mollusca, Echinodermata)	<b>Chapter 4 : Animal Kingdom- Phylum Chordata</b>	Revision	ASSESSMENT 2	To study and impart knowledge on different features of Bryophyta, Pteridophyta, Algae, Gymnosperms.  To introduce and understand the different features and classes of animal kingdom
<b>INFORMATICS PRACTICES</b>	More on SQL Clauses - Between – IN – LIKE - ORDER BY	Data Definition: DROP, ALTER	Data Query: SELECT, FROM, WHERE with relational operators, BETWEEN, logical operators, IS NULL, IS NOT NULL	Data Manipulation: INSERT, DELETE, UPDATE	REVISION FOR ASSESSMENT II	To write queries using different clauses like between , in, like. To sort the records using order by clause Students will be able to create table, insert records and do all DDL and DML commands
<b>COMPUTER SCIENCE</b>	Dictionary – Writing programs using Dictionary	Programs on Nested Loop	Introduction to Python modules: Importing math (sqrt, ceil, floor, pow, fabs, sin, cos, tan.	importing random (random, randint, randrange), statistics (mean, median, mode) modules.	REVISION FOR ASSESSMENT II	To write the programs on using Dictionary and know their operations and when to use them in the program. To know the different modules and math

						<p>functions and use them in coding. There are many built in functions/methods to be learned.</p> <p>To know the different functions like random ( ), randit( ) and randrange( ) and math functions and use them in coding. There are many built in functions/methods to be learned.</p>
ACCOUNTANCY	<p><b>Rectification of Errors</b></p> <p><b>Errors: classification.</b></p>	<p>Detection and rectification of errors</p> <p>Rectification entries</p> <p>Suspense Account</p>	<p>Financial statements of Sole Proprietor</p> <p>Meaning, objectives and importance; Revenue and Capital Receipts; Revenue and Capital Expenditure.</p>	<p>Trading and Profit and Loss Account: Gross Profit, Operating profit and Net profit. Preparation. Balance Sheet:</p> <p>Preparation of Trading, Profit/loss A/c and Balance Sheet with Adjustments.</p> <p>REVISION FOR ASSESSMENT II</p>	<p>REVISION FOR ASSESSMENT II</p>	<p>-Illustrate common errors made in preparing trial balance by giving examples.</p> <p>- Elaborate on different types of errors on the basis of their nature.</p> <p>-Define and illustrate errors of commission, omission, principle, and compensation.</p> <p>-Analyse the errors that affect and do not affect the trial balance.</p> <p>-Explain the steps to detect and locate the</p>

						<p>types of errors in the books of accounts.</p> <ul style="list-style-type: none"><li>- Locate errors and rectify them in case of disagreement of trial balance.</li><li>- Illustrate two-sided errors by providing examples.</li><li>-Articulate the process of rectifying errors in the trial balance by reversing the wrong entry.</li><li>-Rectify errors in the trial balance by cancelling the effect of wrong debit or credit by reversing it.</li><li>-Locate errors and rectify them in case of disagreement of trial balance.</li><li>-Analyse and evaluate accounting data for the preparation of final accounts.</li><li>-Calculate gross profit, operating profit and net</li></ul>
--	--	--	--	--	--	---

						<p>profit of a business entity</p> <p>-Ascertain gross/net profit/loss of the firm and records it in the respective books of accounts.</p> <p>-Records net profit/net loss in the balance sheet by transferring it to the capital account and calculates gross profit/loss and net profit/loss by preparing trading and profit and loss accounts.</p>
<b>BUSINESS STUDIES</b>	<p>Small Business and Entrepreneurial development Entrepreneurship Development (ED): Concept, Characteristics and Need. Process of Entrepreneurship Development: Start-up India Scheme, ways to fund start-up. Intellectual</p>	<p>Small scale enterprise as defined by MSMED Act 2006 (Micro, Small and Medium Enterprise Development Act)</p> <p>Role of small business in India with special reference to rural areas</p>	<p>Schemes of NSIC and DIC Scanning the environment.</p>	<p>Government schemes and agencies for small scale industries: National Small Industries Corporation (NSIC)</p>	<p>District Industrial Centre (DIC) with special reference to rural, backward areas</p>	<p>Understand the concept of Entrepreneurship Development (ED), Intellectual Property Rights. Understand the meaning of small business.</p> <p>Discuss the role of small business in India. Appreciate the various Government schemes and agencies for development of small scale industries. NSIC and DIC with special</p>

	Property Rights and Entrepreneurship					reference to rural, backward area.
<b>ECONOMICS</b>	Producer Behaviour and Supply (Contd.) Increase and decrease in supply, contraction and expansion of supply.	<b>Correlation Techniques For Measuring Correlation; Scatter Diagram</b>	Correlation (Contd.) Karl Pearson's Coefficient of Correlation Spearman's Rank Coefficient Technique	<b>Forms of Market - Perfect Competition</b> Features and implications	<b>Market Equilibrium under Perfect Competition and shifts</b>	Graphically distinguishes between contraction and expansion. Show the shifts of the supply curve in the form of a diagram. Analyse and interpret data related to various issues/events related to Indian economy Explains the methods of measuring correlation Calculates the correlation between variables using the Karl Pearson's coefficient of correlation. Analyse the usage of Spearman's rank correlation to measure the

						<p>relationship between variables. "Explain the working of market mechanisms in the economy. Describe the perfect competitive market and its features. Explain what price behaviour." Evaluate the equilibrium of a perfectly competitive market using a demand-supply curve. Numerically explains equilibrium for a perfectly competitive market with a fixed number of firms. Illustrates the impact of a shift in demand and supply curve."</p>
ENTREPRENEURSHIP	UNIT - VI BUSINESS	Calculation of Fixed Cost and Variable cost	Calculation of BEP for a single product	Calculation of BEP for a single product	writing notes	Students will be able to: Define and understand the concepts of unit sale,

	<p><b>FINANCE AND ARITHMETICS</b></p> <p>Understand the concept of Unit sale, Unit cost, Unit Price, Gross Profit</p> <p>Understand the concept of Cost, Expenditure and Expense</p> <p>Types of Cost</p> <p>Startup Cost</p>	<p><b>Understanding the concept of BEP</b></p>				<p>unit cost, unit price, and gross profit.</p> <p>Calculate and interpret unit sale, unit cost, unit price, and gross profit in business scenarios.</p> <p>Explain the concepts of cost, expenditure, and expense and distinguish between them.</p> <p>Identify and classify different types of costs in a business.</p> <p>Understand the concept of startup cost and its components in a new business.</p> <p>Calculate fixed costs and variable costs in a given business context.</p> <p>Explain the concept of Break-Even Point (BEP) and its importance in business decision-making.</p> <p>Calculate the Break-Even Point (BEP) for a single product using appropriate formulas.</p> <p>Analyze and interpret BEP results to assess business viability.</p>
--	---	--	--	--	--	---

<b>MARKETING</b>	<p>SUBJECT SPECIFIC SKILLS - CONSUMER BEHAVIOUR</p> <ol style="list-style-type: none"> <li>1. Meaning</li> <li>2. Constituents of Consumer Behaviour</li> <li>3. Importance</li> <li>4. Factors affecting consumer behaviour</li> <li>5. Buying Roles</li> <li>6. Consumer Decision Process</li> </ol>	<p>Notes and Worksheet Discussions</p>	<p>EMPLOYABILITY SKILLS - GREEN SKILLS</p> <ol style="list-style-type: none"> <li>1. Meaning</li> <li>2. Important sectors</li> <li>3. Policies</li> <li>4. Stakeholders</li> <li>5. Role of government and private agencies</li> </ol>	<p>EMPLOYABILITY SKILLS - ICT SKILLS2.</p> <p>Basic interface LiBreoffice Writer</p> <ol style="list-style-type: none"> <li>3. Saving, Closing, opening and printing document</li> <li>4. Formatting text in a Word document</li> <li>5. Checking Spelling and grammar</li> <li>6. Inserting Lists, tables, pictures, and Shapes</li> <li>7. header, footer and page number</li> </ol>	<ol style="list-style-type: none"> <li>5. Checking Spelling and grammar</li> <li>6. Inserting Lists, tables, pictures, and Shapes</li> <li>7. header, footer and page number</li> </ol>	<ol style="list-style-type: none"> <li>1. Define the concept of consumer behavior in marketing.</li> <li>2. Identify the components shaping consumer decision-making processes.</li> <li>3. Recognize the significance of understanding consumer behavior in marketing.</li> <li>4. Analyze the influences impacting consumer purchasing decisions.</li> <li>5. Understand the buying roles of a consumer</li> <li>6. Explain the consumer decision process</li> </ol>
<b>ENGINEERING GRAPHICS</b>	<p>Unit 5:Orthographic projection of simple machine blocks - Introduction &amp; explanation of placing different views as per first angle method</p>	<p>Views of Machine block 1 to 5</p>	<p>Views of Machine block 6 to 10.</p>	<p>Views of Machine block 11 to 15.</p>	<p>ASSESSMENT 2</p>	<p>Identifies the front side and top views of a machine block and illustrate the same in the drawing sheet</p>

<b>PSYCHOLOGY</b>	Chp 8- Thinking Introduction, Mental processes- Problem solving,	Reasoning- Inductive, Deductive  Decision Making	Creativity- Process, Barriers in Creativity	<b>Revision for Asst 2 exams</b>	<b>Assessment 2</b>	Learners will Be able to Difeerentiate between various Cognitive processes.  # Enlist real life examples related to each
<b>PHYSICAL EDUCATION</b>	Unit 8: Fundamentals Of Kinesiology And Biomechanics in Sports. Definition and Importance of Kinesiology and Biomechanics in Sports. Principles of Biomechanics. Kinetics and Kinematics in Sports	Types of Body Movements - Flexion, Extension, Abduction, Adduction, Rotation, Circumduction, Supination & Pronation. Axis and Planes – Concept and its application in body movements	Unit 9: Psychology and Sports. Definition & Importance of Psychology in Physical Education & Sports; Developmental Characteristics at Different Stages of Development.	Adolescent Problems & their Management; Team Cohesion and Sports;	Introduction to Psychological Attributes: Attention, Resilience, Mental Toughness	Students will be able to: <ul style="list-style-type: none"> <li>•Understand Kinesiology and Biomechanics with their application in sports</li> <li>•Explain biomechanical principles and their utilization in sports and physical education.</li> <li>•Illustrate fundamental body movements and their basic patterns.</li> <li>•Learn about the Axis and Planes and their application with body movements.</li> <li>•Identify the role of Psychology in Physical Education and Sports</li> <li>•Differentiate characteristics of growth and development at different stages.</li> </ul>

						<ul style="list-style-type: none"> <li>• Explain the issues related to adolescent behavior and Team Cohesion in Sports</li> <li>• Correlate the psychological concepts with the sports and athlete specific situations</li> </ul>
<b>PAT</b>	Unit 4 – Entrepreneurial Skills Entrepreneurship and Society -Qualities & Functions of Entrepreneur	-Myths about Entrepreneurship -Entrepreneurship as Career	KHELO INDIA FITNESS TEST	PORTFOLIO & GAME PROFILE	Revision for Asst 2	Understand entrepreneurship, its societal role, qualities, functions, career opportunities, and myths for practical application
<b>SOCIOLOGY</b>	Unit 6: Social Change and Social order in Rural Areas	Unit 6: Social change and Social order in Urban areas	Unit 6: Completion with discussion of QB and competency based questions	Revision for Asst 2 exams	Assessment 2	<p><b>Understand Patterns of Social Change</b> – Students will be able to explain how rural and urban societies in India undergo social change over time.</p> <p><b>Identify Factors Influencing Change</b> – Students will be able to analyze the economic, political, technological, and cultural factors that bring about changes in social structures.</p>

						<p><b>Examine Social Order –</b> Students will be able to describe the mechanisms that maintain social order and cohesion in rural and urban contexts.</p> <p><b>Compare Rural and Urban Societies –</b> Students will be able to differentiate between rural and urban social systems and assess how change affects these settings differently.</p>
--	--	--	--	--	--	--

	<h2 style="margin: 0;">Indian School Wadi Kabir</h2> <p style="margin: 0;"><b>Class: XI</b></p> <p style="margin: 0;"><b>ISWK SHARING KNOWLEDGE</b></p> <p style="margin: 0;"><b>(Monthly Plan - December 2026)</b></p>						
	<b>SUBJECTS</b>	<b>Week - 1</b>	<b>Week - 2</b>	<b>Week - 3</b>	<b>Week - 4</b>	<b>Week - 5</b>	<b>Learning Outcomes</b>
<b>ENGLISH</b>	Reading Comprehension- unseen passage	Reading Comprehension- case-based passage	GRAMMAR: Transformation of sentences and Phrases and clauses.				Enabling students to identify, differentiate, and construct them to improve sentence structure and enabling students to identify, differentiate, and construct them to

						improve sentence structure.
<b>MATHEMATICS</b>	11 - Conics Hyperbola Problems on Hyperbola	12 - Three - Dimensional Geometry  To Introduce Coordinate Axes and Coordinate Planes in Three Dimensional Space. Coordinates of a Point in Space. Distance between two points.	12 - Three - Dimensional Geometry  To Solve Problems based on distance formula Section formula To Practice questions on Section formula	WINTER BREAK	WINTER BREAK	Understands Coordinate Axes and Coordinate Planes in Three Dimensional Space.  Coordinates of a Point in Space. Distance between two points To Solve Problems based on distance formula Section formula To Practice questions on Section formula
<b>PHYSICS</b>	<b>ASSESSMENT II</b>	<b>ASSESSMENT II</b>	conditions of gaseous state, isothermal, adiabatic, reversible, irreversible and cyclic process	WINTER BREAK	WINTER BREAK	Students will understand the concept of expansions
<b>Chemistry</b>	<b>ASSESSMENT II</b>	<b>ASSESSMENT II</b>	Introduction to Alkynes Chemical Reactions of Alkynes Aromatic Hydrocarbons	WINTER BREAK	WINTER BREAK	Learn the nomenclature and structure of alkynes. Investigate chemical reactions of alkynes.
<b>BIOLOGY</b>	<b>ASSESSMENT II</b>	<b>ASSESSMENT II</b>	<b>Chapter 13 : Plant Growth and Development- Growth, Differentiation,</b>	WINTER BREAK	WINTER BREAK	-To understand the importance of plant growth regulators, understand the definition

			<b>Dedifferentiation, Redifferentiation, Development</b>			of photoperiodism and vernalisation. -To study the phase of plant growth and growth rate.
<b>INFORMATICS PRACTICES</b>	<b>ASSESSMENT II</b>	<b>ASSESSMENT I</b>				
<b>COMPUTER SCIENCE</b>	<b>ASSESSMENT II</b>	<b>ASSESSMENT I</b>				
<b>ACCOUNTANCY</b>	<b>ASSESSMENT II</b>	<b>ASSESSMENT I</b>	<b>ASSESSMENT II and</b>  Preparation of Trading, Profit/loss A/c and Balance Sheet with Adjustment.  FINAL PROJECT GUIDELINES	<b>WINTER BREAK</b>	<b>WINTER BREAK</b>	- Make adjustments for closing stock, prepaid expenses, outstanding expenses, accrued income, income received in advance, bad debts, depreciation etc.  - Examine the project guidelines and generate a background for the final preparation of the same.

<b>BUSINESS STUDIES</b>	REVISION ASSESSEMENT -2	EXAMINATION	DISCUSSION OF PROJECT WORK	HOLIDAYS		
<b>ECONOMICS</b>	REVISION ASSESSEMENT -2	EXAMINATION	DISCUSSION OF PROJECT WORK	HOLIDAYS		
<b>ENTREPRENEURSHIP</b>			<p>Discussing Project Work</p> <p>UNIT - VII RESOURCE MOBILIZATION Understand the concept of resource mobilization</p> <p>Understand the type of resources - Physical Resources</p>	Holidays		
<b>MARKETING</b>	ASSESSMENT 2	ASSESSMENT 2	DISCUSSION OF PROJECT GUIDELINES	WINTER BREAK	WINTER BREAK	

<b>ENGINEERING GRAPHICS</b>	ASSESSMENT 2	ASSESSMENT 2	views of machine block 16 to 20	WINTER BREAK	WINTER BREAK	
<b>PSYCHOLOGY</b>	ASSESSMENT 2	ASSESSMENT 2	WINTER BREAK	WINTER BREAK	WINTER BREAK	
<b>PHYSICAL EDUCATION</b>	ASSESSMENT 2	ASSESSMENT 2	DISCUSSION OF PROJECT WORK AND PRACTICAL	WINTER BREAK	WINTER BREAK	
	ASSESSMENT 2	ASSESSMENT 2	KHELO INDIA FITNESS TEST	WINTER BREAK	WINTER BREAK	
<b>SOCIOLOGY</b>	Assessment 2	Assessment 2	Final project submission with viva	WINTER BREAK	WINTER BREAK	

	<b>Indian School Wadi Kabir</b> <b>Class: XI</b> <b>ISWK SHARING KNOWLEDGE</b> <b>(Monthly Plan - January 2027)</b>					
	<b>SUBJECTS</b>	<b>Week - 1</b>	<b>Week - 2</b>	<b>Week - 3</b>	<b>Week - 4</b>	<b>Week - 5</b>
<b>ENGLISH</b>		Hornbill: Childhood (Poem)	Hornbill: Father to Son (poem)	Snapshots: The Tale of Melon City (poem)	GRAMMAR: Integrated Grammar exercises	Comprehend the poem and enhance their vocabulary. Identify the figures of speech and the rhyming.

<p><b>MATHEMATICS</b></p>	<p>13 - Limits and Derivatives Intuitive Idea of Derivatives and Limits Problems based on Limits Limits of Trigonometric Functions</p>	<p>13 - Limits and Derivatives Evaluate the limits and derivatives of a function at a given point To find the derivatives using first principle</p>	<p>13 - Limits and Derivatives derivative of a given function Evaluate the limits and derivatives of a function at a given point</p>	<p>14 - Probability Random Experiments Event Axiomatic Approach to Probability To solve Problems based on Probability</p>	<p>14 - Probability Axiomatic Approach to Probability To solve problems based on Probability</p>	<p>To Introduce Intuitive Idea of Derivatives and Limits Problems based on Limits of Trigonometric Functions. Evaluate the limits and derivatives of a function at a given point To find the derivatives using first principle</p>
<p><b>PHYSICS</b></p>	<p>Chapter–12: Kinetic Theory Equation of state of a perfect gas. Kinetic theory of gases - assumptions, concept of pressure. degrees of freedom, law of equi-partition of energy (statement only) and application to specific heat capacities of gases; concept of mean free path, Avogadro's number.</p>	<p>Chapter–13: Oscillations Periodic motion - time period, frequency, displacement as a function of time, periodic functions and their applications. Simple harmonic motion (S.H.M) and its equations of motion; phase; oscillations of a loaded spring- restoring force and force constant; energy in S.H.M. Kinetic and potential energies; simple pendulum derivation of expression for its time period.</p>	<p>Chapter–14: Waves: Wave motion: Transverse and longitudinal waves</p>	<p>speed of travelling wave, displacement relation for a progressive wave, principle of superposition</p>	<p>of waves, reflection of waves, standing waves in strings, fundamental mode and harmonics</p>	<p>Students will understand the concept of wave motions</p>

<b>Chemistry</b>	Chemical Thermodynamics Introduction to Thermodynamics Work, Heat, and Energy Extensive and Intensive Properties State Functions	First Law of Thermodynamics Internal Energy and Enthalpy Hess's Law Enthalpy Changes in Reactions Phase Transitions Introduction to the Second Law of Thermodynamics Understanding Entropy	Gibb's Energy Change Criteria for Equilibrium Introduction to the Third Law of Thermodynamics Chapter 6-Equilibrium Introduction to Equilibrium Dynamic Nature of Equilibrium Law of Mass Action	Equilibrium Constant Factors Affecting Equilibrium Le Chatelier's Principle Ionic Equilibrium	Acid Strength and pH Concept Hydrolysis of Salts	Students will understand the basic concepts of systems, surroundings, and the types of systems (open, closed, isolated). Students will differentiate between work, heat, and energy, and understand their interrelationships. Students will classify properties as extensive or intensive and understand their implications in thermodynamics.
<b>BIOLOGY</b>	Ch 11 : Photosynthesis in higher plants- Early experiments, Where does photosynthesis take place?	Ch 11 : Photosynthesis in higher plants-How many types of pigments are involved in photosynthesis? Light reaction,	<b>Ch 11 : Photosynthesis in higher plants</b>  <b>Light reaction ,text book exercise</b>	Ch 12 : Chapter 12 : Respiration in plants  introduction, basic concepts	Chapter 12 : Respiration in plants-Do plants breathe? Glycolysis	To recall that Photosynthesis as a means of autotrophic nutrition; site of photosynthesis, pigments involved in photosynthesis (elementary idea); photochemical and biosynthetic phases of photosynthesis; To make the learners understand the process of Glycolysis.

<p><b>INFORMATICS PRACTICES</b></p>	<p>ASSESSMENT-2</p>	<p>Artificial Intelligence, Machine Learning, Natural Language Processing, Immersive experience (AR, VR)</p> <p>Robotics, Big data and its characteristics, Internet of Things (IoT),</p>			<p>revision of Python lists and dictionary</p>	<p>The purpose is to introduce emerging trends which includes:</p> <ol style="list-style-type: none"> <li>1.Artificial Intelligence</li> <li>2.Machine Learning</li> </ol> <p>To comprehend the ideas of:</p> <ol style="list-style-type: none"> <li>1.Robotics</li> <li>2.Big Data and its characteristics</li> <li>3.Internet of things</li> </ol> <p>To understand the concept of:</p> <ol style="list-style-type: none"> <li>1.Cloud Computing</li> <li>2. Various models of cloud computing and its advantages</li> </ol>
<p><b>COMPUTER SCIENCE</b></p>		<p>Digital Footprints Digital Society and Netizen: net etiquettes, communication etiquettes, social media etiquettes Data Protection:</p>		<p>speed of travelling wave, displacement relation for a progressive wave, principle of superposition of waves, reflection of waves, standing waves in strings, fundamental mode and harmonics</p>	<p>Intellectual Property Rights, Plagarism, digital rights management and licencing, open source, open data, privacy, privacy laws, fraud, cyber-crime, phishing, illegal downlods, child pornography, scams, cyber</p>	<p>To know the Cyber law ,safety and protection is important for students know it. To know Social networking sites - Twitter, LinkedIn, and Facebook and specific usage Rules - Safely accessing web sites: adware, malware, viruses, trojans, safely communicating data: and identity verification is good to know.</p>

					forensics, IT Act 2000, Technology and Society	To know and understand Intellectual Property Rights, Plagiarism, digital rights management and licencing, open source, open data, privacy, privacy laws, fraud, cyber-crime, phishing, illegal downlods, child pornography, scams, cyber forensics, IT Act 2000, Technology and Society
<b>ACCOUNTANCY</b>	<b>WINTER BREAK</b>	Preparation of Trading, Profit/loss A/c and Balance Sheet with Adjustments.	speed of travelling wave, displacement relation for a progressive wave, principle of superposition of waves, reflection of waves, standing waves in strings, fundamental mode and harmonics	Incomplete Records  Features, reasons and limitations.  Ascertainment of Profit/Loss by Statement of Affairs method.	Ascertainment of Profit/Loss by Statement of Affairs method.	-Prepare balance sheet of a business concern -Examines the accounting treatment of different items of the balance sheet and creates a balance sheet of a business concern. -Analyses the accounting treatment of assets, liabilities and capital in the balance sheet.

						<p>-Examine the accounting treatment of different items of the balance sheet and create a balance sheet of a business concern.</p> <p>-Understand the meaning of single entry system, advantages and disadvantages</p> <p>-Ascertain capital and determination of profit or loss</p>
<b>BUSINESS STUDIES</b>		<p>Internal Trade</p> <p>Internal trade - meaning and types services rendered by a wholesaler and a retailer</p> <p>Types of retail-trade-Itinerant and small scale fixed shops retailers</p>	<p>Large scale retailers-Departmental stores, chain stores – concept</p> <p>GST (Goods and Services Tax): Concept and key-features</p>	<p>International trade: concept and benefits</p> <p>Export trade – Meaning and procedure</p> <p>Import Trade - Meaning and procedure</p> <p>Documents involved in</p>	<p>International Trade; indent, letter of credit, shipping order, shipping bills, mate’s receipt (DA/DP)</p> <p>World Trade Organization (WTO) meaning and objectives</p>	<p>The meaning and types of internal trade.</p> <p>Appreciate the services of wholesalers and retailers.</p> <p>The different types of retail trade.</p> <p>The distinctive features of departmental stores, chain stores and mail order business.</p> <p>Understand the concept of GST.</p> <p>The concept of international trade.</p>
