

TALENTZ SPECTRUM WEEK 2020 - 2021

"Creativity doesn't wait for that perfect moment. It fashions its own perfect moments out of ordinary ones." -- Bruce Garrabrandt

The world is currently facing an unprecedented trial owing to the COVID-19 pandemic. However, we, the staff of ISWK, felt that it is of the utmost importance to keep the spirit of ISWK high. As it is rightly said, "Creative thinking inspires ideas, ideas inspire change." To encourage and nurture every child's natural creative flair we had organized the 'TALENTZ SPECTRUM WEEK - Part I' for Classes 1-V from the 5th of July to the 9th of July, 2020.

Our class I students showcased their skills in Alphabet and Number Drawing, or Model Making with Lego Blocks or with the materials of their choice, while the Class II students took part in Paper Plate Craft, Vegetable Printing, and Origami. Our Class III students had the option to choose from making Art Seed Collages, Origami Aquariums and Face Masks whereas the Class IV students could choose from Collage Making, Finger Puppet Making, and Best Out of Waste Art. The students of Class V could participate in Poster Making, Card Making, and Shoebox Ecosystem Art. Apart from art and craft there were dance and music sessions wherein children performed live and enthralled the audience.

The children were guided through the process as and when required. It was heart-warming to watch the enthusiasm of the children which overcame all barriers of social distancing. It was a great pleasure to watch the little hands at work. These wonderful moments were captured by the parents and sent to the teachers, who in turn compiled them and created videos. These were sent to the children as mementos. The event was a great success due to the collaboration of the teachers, students and parents. We look forward to continuing this enriching educational experience for our children with their ongoing cooperation in 'TALENTZ SPECTRUM WEEK - Part II'.
