'Mathematics is not about numbers, equations, computations or algorithms, its about understanding'-William Paul Thurston

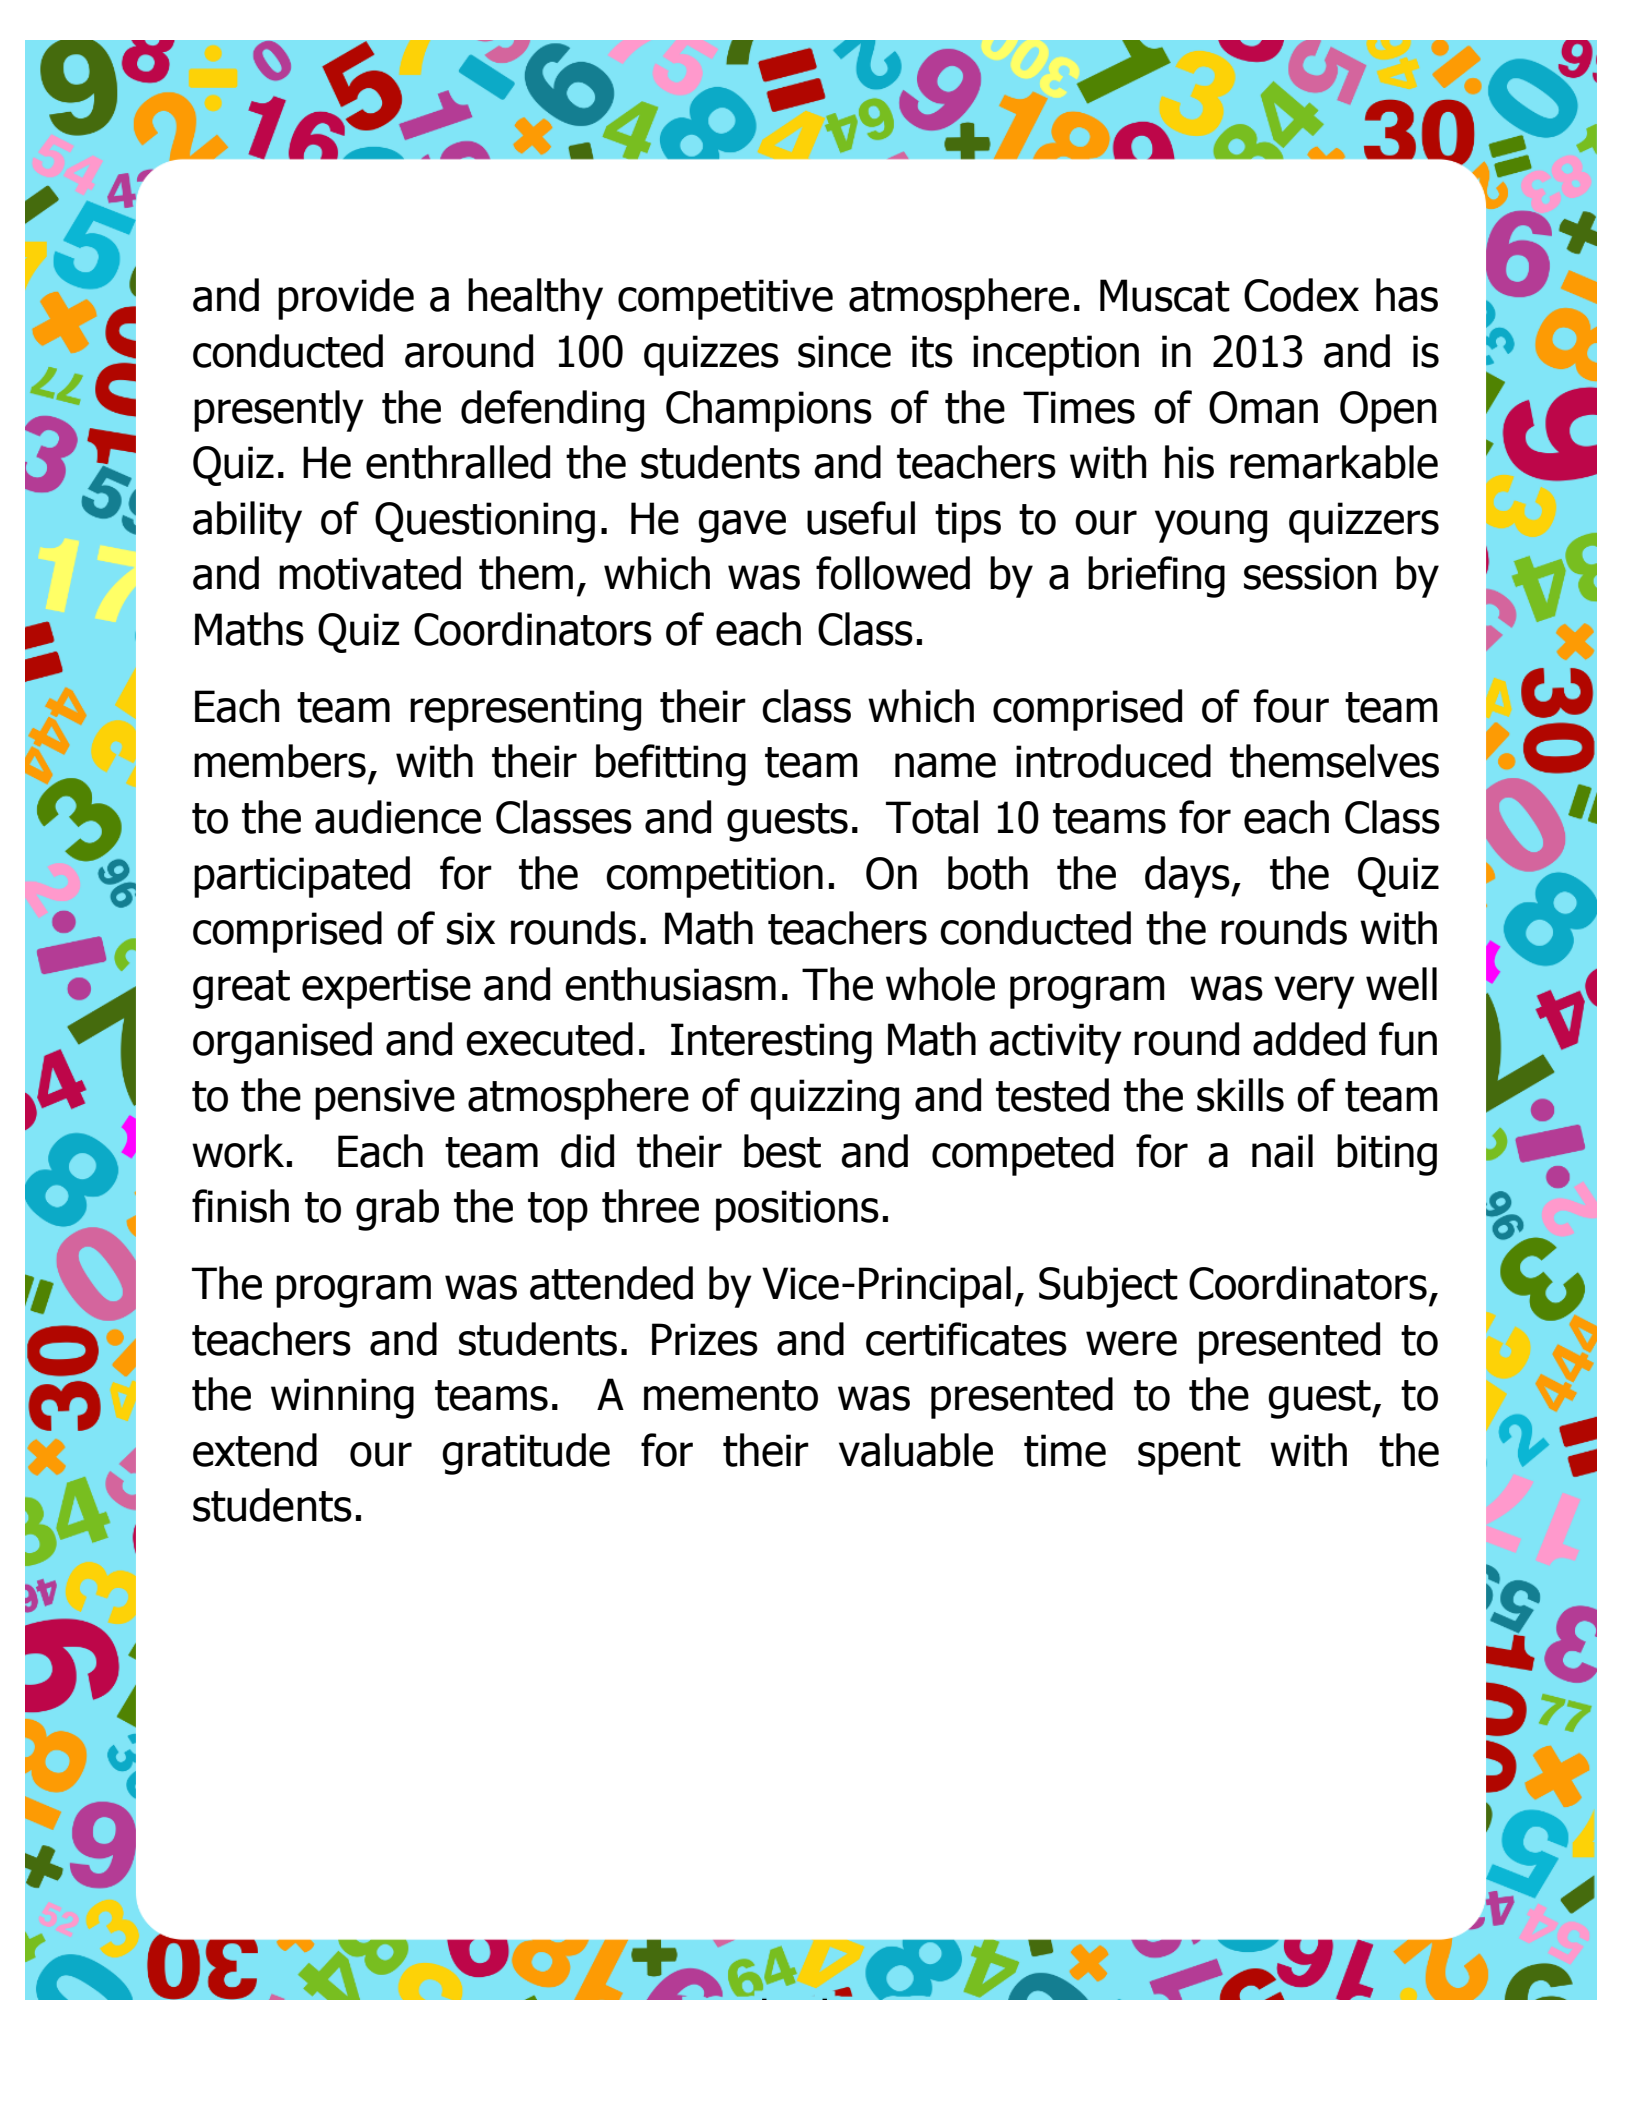

Mathematic Quiz Competitions are held to help students to think with a broader perspective. It promotes virtuous qualities such as team work, time management, problem solving skills, patience and perseverance. **Mathemagica** - The much awaited Math Quiz Finals for this year was successfully conducted in an interactive manner for Classes III & IV on 30th October and Class V on 31st, October respectively.

On both the days the program commenced with the welcome address by a Guest Speaker. On 30th October, we had the honour of having amidst us a highly qualified person, Mrs. Lakshmi Kameshwari- senior Lecturer in Middle East College, Rusayl. She holds an M.Sc, M.Phil., B.ED degree from India and PG certificate course from UK and is a fellow member in UK higher Educational Academy in Oman. Apart from that she is a community outreach coordinator, Program manager, and exemption

coordinator. She addressed the students and advised them to enjoy the beauty of the subject of Mathematics. She gave valuable tips of Vedic Maths, for easy memorising and calculations.

On 31st we had a smart intellectual, an Alumni of ISWK Mr. Hala Jamaal a B.Tech in Electronics and Communication from Waljat as the guest speaker. He is a famous Quiz Master and the founder member of Muscat Codex-an organisation which aims to ignite extraordinary minds and offers a platform to challenge individuals

and provide a healthy competitive atmosphere. Muscat Codex has conducted around 100 quizzes since its inception in 2013 and is presently the defending Champions of the Times of Oman Open Quiz. He enthralled the students and teachers with his remarkable ability of Questioning. He gave useful tips to our young quizzers and motivated them, which was followed by a briefing session by Maths Quiz Coordinators of each Class.

Each team representing their class which comprised of four team members, with their befitting team name introduced themselves to the audience Classes and guests. Total 10 teams for each Class participated for the competition. On both the days, the Quiz comprised of six rounds. Math teachers conducted the rounds with great expertise and enthusiasm. The whole program was very well organised and executed. Interesting Math activity round added fun to the pensive atmosphere of quizzing and tested the skills of team work. Each team did their best and competed for a nail biting finish to grab the top three positions.

The program was attended by Vice-Principal, Subject Coordinators, teachers and students. Prizes and certificates were presented to the winning teams. A memento was presented to the guest, to extend our gratitude for their valuable time spent with the students.
