Colours play a very important role in our lives. They have a healing power also. Read the pie chart given below and write an article on colour therapy. You are Shruti /Sharad of Bhagirath Public School. **Also refer to the points mentioned in the adjoining diagram.**

Colour Therapy **By Shruti, Class 7**

Colours add joy to everyone's life. When infused properly into our lives they can enhance our qualities. Let us see what properties each colour possesses.

Green is responsible for creating balance and harmony in life. It represents love and communication and acceptance since it's nature's colour. The shades between blue and indigo stand for calmness, peace, love, honesty, kindness, emotional depth, truth and devotion. Red can increase physical vitality and stamina. Orange stimulates creativity, productivity, pleasure, optimism, enthusiasm and emotional expression. Yellow is said to increase fun and humour. Violet stimulates intuition and imagination.

So, let us bring colour in our lives and reap its benefits. We all have our favourite colours and now that we know what characteristic they stand for we can hope to inculcate those qualities in our life.

EXERCISE.

1. You are Asha / Ashish Shetty resident of Tata Nagar. You are disturbed by the viral fevers like ‘Dengue’ and ‘Chikungunya’ spread around during the summer season. Write an article for a leading newspaper about the prevailing problem in 200 words.

Hints:

The infection spread due to increase in temperature — we are responsible for this —keeping the surrounding clean will not spread the virus.

2. Looking at the increasing obesity among school children write an article in 180 -200 words on the topic by taking help from the hints given below.

Hints:

- ***problem of being overweight is common in children.***
- ***sedentary lifestyle of children, watch television, waste time on social networking sites, very little physical exercise.***
- ***should be encouraged to do more physical exercise.***
