

# INDIAN SCHOOL AL WADI AL KABIR

<b>Class: VII</b>	<b>Department: Computer Science</b>	<b>Year: 2020-2021</b>
<b>Worksheet No:2</b>	<b>Topic: HTML - INTRODUCTION</b>	

## HTML – INTRODUCTION

### Answer the following

1. What do you mean by Text Editors? Give an example for text editor software

A text editor is a type of computer program that edits plain text. A text editor is a program that allows user to enter, change, save and print text. Example : Notepad

2. What is a web page?

A web page is a specific collection of information provided by a website and displayed to a user in a web browser.

3. Give the structure of HTML document

```
<HTML>  
<HEAD>  
<TITLE>.....</TITLE>  
</HEAD>  
<BODY>  
.....  
</BODY>  
</HTML>
```

4. What is Container tag? Give an example

Tags that have both starting as well as ending are known as container tags. Eg: Body Tag

5. What is an Empty tag? Give an example

Tags that have only a starting tag and there is no need to close them using (</>) are known as empty tags. Eg : BR tag

6. What are semantic tags in HTML?

Semantic tags enable you to describe the different parts of your web page. Example: Header Tag, Footer Tag etc

7. What is the difference between Header tag and Footer tag in HTML?

**HEADER :** The <header> tag can be used to define introductory information like site names, company names logos and slogans.

**FOOTER :** A <footer> tag is used to put copyright information, a contact address and other small print items on a page
