IV	Answer the following
1	What are block mountains? ➤ Block mountains are created when large areas are broken and displaced vertically.

- The uplifted blocks are known as horsts and the lowered blocks are known as graben.
- Examples: The Rhine valley and the Vosges mountain in Europe.

2 How are plateaus useful for man?

- Plateaus are very useful for man because they have rich mineral deposits.
- Many of the mining areas in the world are located in the plateau regions. For example, the African plateau is famous for gold and diamond mining.
- The Chhotanagpur plateau in India has huge reserves of iron, coal and manganese.
- In the plateau regions, one can find several waterfalls. Many plateaus have scenic spots which attract tourist on large scale.
