READING CARD – 6

RESOURCE PERSON: MS. ANEESA SIKANDER

NAME: _____ CLASS: II SEC: ___ DATE: _____

Dinosaurs were the biggest animals on Earth. They lived on land and in water millions of years ago. There were over seven hundred different types of dinosaurs. Some were taller than a house. Some were smaller than a dog. Dinosaurs went extinct 66 million years ago, as a result of an asteroid impact. Around 75 per cent of all species living at the time became extinct at that time.
